

# Electric Powered **IN-BLOCK IMMERSION HEATER**

AFEP|BH-260819

In-Block heaters mount directly into the water jacket of the engine and can reduce engine wear due to cold starts by up to 50%. Warming the engine to the proper temperature also reduces idling and cranking time, saving fuel and minimizing maintenance. Preheaters are available for most leading makes and models of heavy-duty truck engines and are CSA approved. To specify an in-block heater for your heavy-duty engine, please select your engine manufacturer and model in the drop-down below.

## Function

Warming the engine to the proper temperature also reduces idling and cranking time, saving fuel and minimizing maintenance.

## Applications

Mining  
Construction  
Agriculture  
Heavy Duty On-Highway  
Oil and Gas  
Power Generation

## Features

Easy installation  
Available in freeze plug, threaded, plater/bolt-on en cartridge

## Benefits

Ensure quick winters Starts  
Reduce engine wear  
Replacement cordsets available
