

Who we are

LINK Mobility GmbH in Hamburg is the German branch of the LINK Mobility Group with 17 locations and 400+ employees throughout Europe. We are one of the leading European providers of mobile messaging and CPaaS solutions, based on volume of messages, for customer engagement serving enterprise, SME and government customers. Our international customers use the scalable services and solutions we offer, to simplify and improve their communication processes along the entire value chain. Whether if these are notifications, coupons, invoices or whole service processes. We develop our software 100 percent in-house, always taking into account the needs of our customers such as PayPal, MAERSK, Deutsche Post, Merck and ING.

We are looking for a passionate

DevOps Engineer (m/w/d)

Your mission

- Ensuring the operation of our SMS Gateway
- Based on your team's priorities and expertise you are responsible for your own tasks
- You collaborate within cross-functional teams doing both: learning from others and sharing knowledge

What we expect from you

- Several years of professional experience and passion for both parts: development and operations
- Advanced Linux knowledge

- Mindset and passion for automation
- Profound knowledge of infrastructure, virtual machines, networks and hardware
- Basic skills in scripting plus programming languages and the passion to enhance your skills
- Basic knowledge in Puppet or other deployment framework/ infrastructure as code
- Experiences in coordinating external service providers
- Joy to learn new technologies and adopt new tools
- Strong analytical and problem-solving skills
- Good English and German skills

These systems and programs await you

- Citrix Xen, CentOS, Puppet, Networks and Juniper Network devices, EMC and Synology Storage Systems, Elasticsearch, Scripting, Icinga and Docker Swarm, Linux and Java. Anything missing? We are always open to new ideas!

We offer

- Unlimited employment relationship
- Generous vacation arrangements
- Subsidy to HVV-Profiticket
- Regularly team events
- Free fruits and drinks
- Open feedback culture and a regularly exchange with dailies, reviews and retros
- Flat hierarchies
- Very good traffic connections
