

Who we are

LINK Mobility GmbH in Hamburg is the German branch of the LINK Mobility Group with 17 locations and 400+ employees throughout Europe. We are one of the leading European providers of mobile messaging and CPaaS solutions, based on volume of messages, for customer engagement serving enterprise, SME and government customers. Our international customers use the scalable services and solutions we offer, to simplify and improve their communication processes along the entire value chain. Whether if these are notifications, coupons, invoices or whole service processes. We develop our software 100 percent in-house, always taking into account the needs of our customers such as PayPal, MAERSK, Deutsche Post, Merck and ING.

We are looking for a passionate

Java Software Engineer (m/f/d)

What we offer

- Permanent working contract
- 30 days of vacation
- Public transport subsidy (if you're based in Hamburg – which is not a need)
- Possibilities for working remote
 - Employer-funded pension
- Company fitness program
- Open feedback culture and regularly dailies and reviews

Your tasks

- You're supporting our Global Messaging team in strategic development of our SMS Gateway
- Direct support for our SMS Routing Operations team

- You collaborate with other cross-country teams within LINK
- You're keen to share your ideas to improve our processes

Systems & programs, which awaits you

Java, Linux, CentOS, Puppet, Elasticsearch/Kibana, Jenkins, Bitbucket, Scripting, Icinga and DockerSwarm

What we expect from you

- Advanced skills in Java
- Linux knowledge
- Several years of professional experience and passion for both parts: development and operations
- Ability to prioritize and working independent on your tasks
- Mindset and passion for automation
- Familiar with Continuous Delivery
- Basic knowledge of infrastructure, networks and hardware
- Experiences in coordinating external service providers
- Knowledge of both: frontend and backend technology
- Joy to learn new technologies and adopt new tools
- Strong analytical and problem-solving skills
- Good English skills
