# Hey, this is a glass straw!

We try to do our part for the environment and in particular the precious marine life that makes the KZN north coast so special.

One of our earliest initiatives was to avoid single-use plastics as far as possible, including no plastic straws. Our glass straws have been very well received. While they cost us a lot of money, the investment in our marine life is priceless. We hope that we will inspire all our customers and other venues to do the same.

**Please help us by looking after our straws.**

**Should you wish to buy straws for home use, speak to one of our team members.**
