

The Carrot Green Roof is a unique collaboration of artists, gardeners, entrepreneurs, researchers and community members that have come together to create a beautiful place to serve and protect the environment and sustain members of the community both in body and in spirit.

The garden is a place to share. A place to learn and evolve. A place to nurture and be nourished. A place of enterprise and abundance. A place of cultivation and growth. A place of memories and new beginnings.

This unique space above The Big Carrot food store offers a wide range of vegetation and innovative practices within this intensive and extensive garden. The Carrot Green Roof is a catalyst for inspiring sustainable practices throughout our city. Opportunities for collaboration and enterprise will continue to evolve and will engage and support the community in new and exciting ways.

WHAT'S ON TOP OF CARROT COMMON?

Carrot Green Roof offers you a new place to ...

- relax among the greenery
- enjoy a sustainable eco-system environment
- take a wellness class
- book your event

The Learning Hub answers...

- how many ways can you grow food on a roof?
- how do I eat this plant?
- can I grow food in my apartment?
- what's new in green roofs?
- can I *learn* to garden ?

Our exhibitors will teach you about...

- worm composting at home
- getting kids interested early
- what plants are good for your health
- how *you* can start a community garden

and more!
