

2030 and Beyond

NZHIT Summit, 29 October 2020

Professor Anil Thapliyal

Executive Director, eMental Health International Collaborative

eMental Health Domain

Current State

Review of Coroners Report
Silo based procurement
Modes of communication

JAMA – April 2019

**“...in this cross-sectional study of
36 top-ranked apps for depression and
smoking cessation available in public app stores,
29 shared patient data with third parties”**

Assessment of the Data Sharing and Privacy Practices of Smartphone Apps for Depression and Smoking Cessation

Which App to choose?

15%

Meet minimum standards

Future State

eMHIC = Collaboration Across Five Industry Groups

2030 and beyond

Collaboration
Patient Journey
Integration and interoperability
Listening and empathy
Speaking the Consumers language

If it doesn't work for the consumers, their families and carers then it doesn't work at all
