Dear Parent/Carer

Re: School bus services from September 2020

As part of our planning for September, I have been in contact with West Yorkshire Metro, who run the school bus service. They are currently planning how they run a service in September, in the light of the government's intention that all students are in school. They are looking to try and provide additional school bus places, in order that existing services can take more students and to look at whether some students who travel on public transport currently, are able to take a school bus. However, this is not yet confirmed as they are consulting with bus operators about whether they have the capacity to provide these extra buses.

In order to help WY Metro with this planning, and so that they have a good picture of what demand looks like, we have been asked to send out a message to our parents/carers whose children need to travel by bus requesting that you apply for a place for your child on the school bus service, or apply to renew your child's place (even if you have not been successful in the past). Many of you will have done this already, but if you haven't please do so **this week** in order to inform the vital planning that is going on currently.

As usual you apply for a school bus place via the WY Metro website www.wymetro.com. Any queries about routes, etc, should be taken to WY Metro.

Yours faithfully

Jon Norden
Principal
