Dear Parent/Carer

Parking Outside Abbey Grange Church of England Academy

Over the past few weeks it has be brought to my attention that several vehicles have been parking on pathways, double-parking, parking on the zig-zag markings, parking in the school bus bays and otherwise causing an obstruction to the school site, at the start and end for the school day.

We would kindly request that you do not use the entrances to the staff car parks as a turning circle or as a drop off or collection point. If you drop or collect your child each day then please park a safe distance away from the school site so as not to cause any obstruction or potential danger to other students, staff and vehicle users.

As you will no doubt appreciate, around the area of a school the safety of children is paramount. Road markings and parking restrictions are carefully considered by the council, especially outside schools where the dangers posed to children by other road users are heightened.

Your co-operation with this request is greatly appreciated.

Yours faithfully

Mr M Dixon
Assistant Principal
