AS A PRECAUTION, THE BATIQUITOS LAGOON FOUNDATION (BLF) NATURE IS CLOSED AND OUR PUBLIC EVENTS ARE SUSPENDED DUE TO THE COVID-19 PANDEMIC UNTIL FURTHER NOTICE!

WE WILL BE ADDRESSING NATURE CENTER ISSUES INCLUDING: SANITIZATION OF OUR CENTER AND EXHIBITS; PROTECTION MEASURES TO ENSURE THE SAFETY OF ALL OF OUR VISITORS, ESPECIALLY THE CHILDREN AND CHAPERONES; HOW LONG WE WILL BE CLOSED AND THE CRITERIA FOR RE-OPENING; PROECTING OUR NATURE CENTER HOST, DOCENTS AND VOLUNTEERS, AS WELL AS OUR MANY VISITORS.

SOME STEPS YOU, OUR VISITORS, NEED TO CONSIDER FROM THE WORLD HEALTH ORGANIZATION (WHO) INCLUDES:

Wash Hands Frequently
Use soap and water for visibly dirty hands or an alcohol-based hand rub frequently for non-visibly dirty hands.

Practice Respiratory Hygiene
When coughing and sneezing, cover mouth and nose with flexed elbow or tissue – discard tissue immediately into a closed bin and clean your hands with alcohol-based hand rub or soap and water.

Maintain Social Distancing
Maintain at least 3 feet distance between yourself and other people, particularly those who are coughing, sneezing and have a fever. If you are too close, you can breathe in the virus.

Avoid Touching Eyes, Nose & Mouth
Hands touch many surfaces which can be contaminated with the virus. If you touch your eyes, nose or mouth with your contaminated hands, you can transfer the virus from the surface to yourself.

Seek Medical Care Early
If you have fever, cough and difficulty breathing, seek medical care early and tell your health care provider if you have traveled in an area in China where the virus has been reported, or if you have been in close contact with someone with who has traveled from China and has respiratory symptoms.

Mild Symptoms
If you have mild respiratory symptoms and no travel history to or within China, still seek medical care and be sure to carefully practice basic respiratory and hand hygiene and stay home until you are recovered, if possible.
