## Everyone is different

We are a family run company and everything we do is about valuing and supporting people. Everyone is different and it is that which makes your care and support tailored to your individual needs.

To achieve this, we take time to get to know you and put your preferences at the centre of everything we do. Our staff support you to create a person-centred plan that tells us how you want to live your life now and in the future.

Through a range of communication tools, we ensure that you are involved in the development of your own Care and Support plan. We're committed to supporting you in a way that works for you; with reliability and consistency. You and your loved ones can be assured that your needs are at the centre of all we do.

## Supported Living and Outreach

Whether it's supporting you in your own home, in the community or in a specialised facility, we enable you to live as independently as possible. Our Supported Living and Outreach service provides support for people with a range of conditions:

- Learning disabilities
- Physical disabilities
- Brain injury
- Age related illness
- Physical disabilities
- Complex care needs
- Mental health conditions
- People in transition
- Autism
- Sensory loss
- Challenging behaviour

We provide support from a few hours a day to 24 hours a day, including overnight support when needed. This can include many things, like supporting you to get up and get dressed, help you to develop friendships and relationships, and become active members of your community.

## Live how you want to

We meet with you and your family so that we can develop an understanding of your life story, any support or communication needs you might have.

We work in partnership with Local Health Professionals such as social workers, community nurses, and specialists such as Speech and Language Therapists, Physiotherapists and Occupational Therapists.

For everyone at Taylors, our values are what unite and guide us to deliver the best service for you. Our fundamental aim is to support opportunity, choice and success, and our values enable us to do this every day.
