

Care in Orthopaedics, burden of treatment
and the Effectiveness of Communication
Technology:
the **CONNECT** Project

PATIENT AND PUBLIC INVOLVEMENT MEETING

24th September 2018

The views expressed are those of the author(s) and not necessarily those of the NHS, the NIHR or the Department of Health and Social Care.

Background

Plan of Research

Literature Review

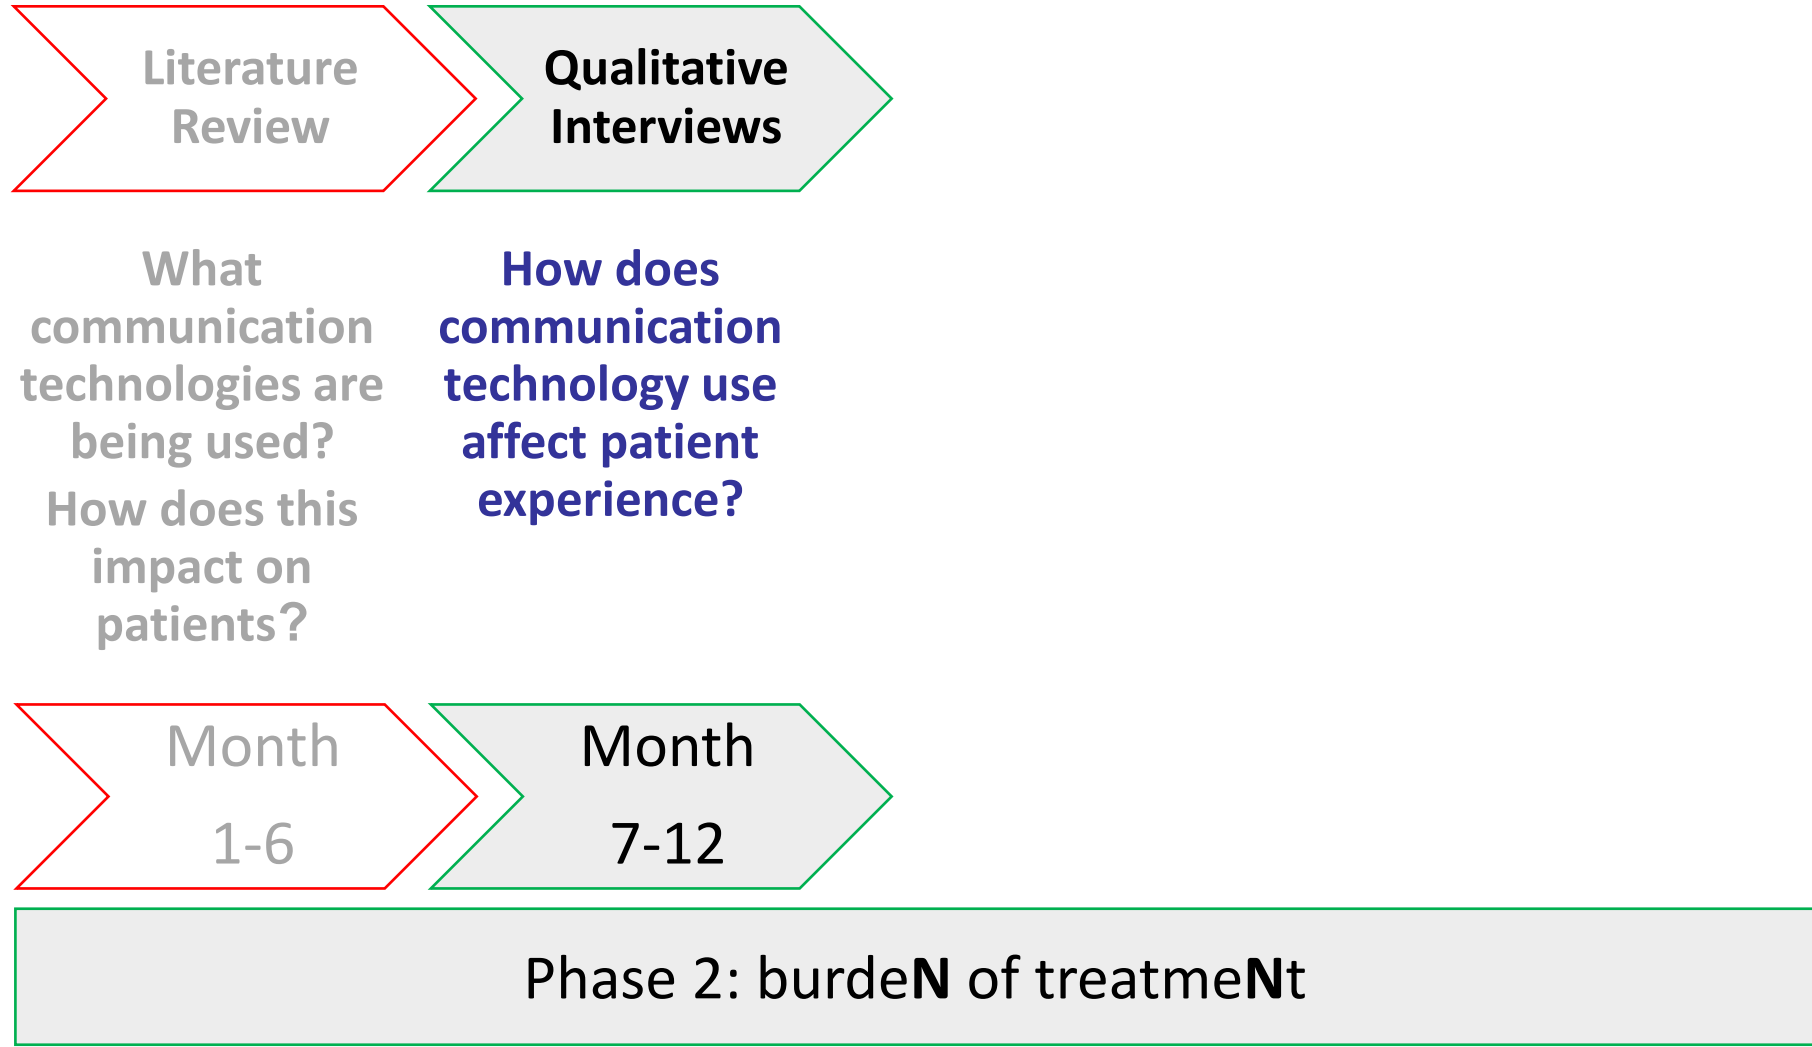

**What communication technologies are being used?
How does this impact on patients?**

Month
1-6

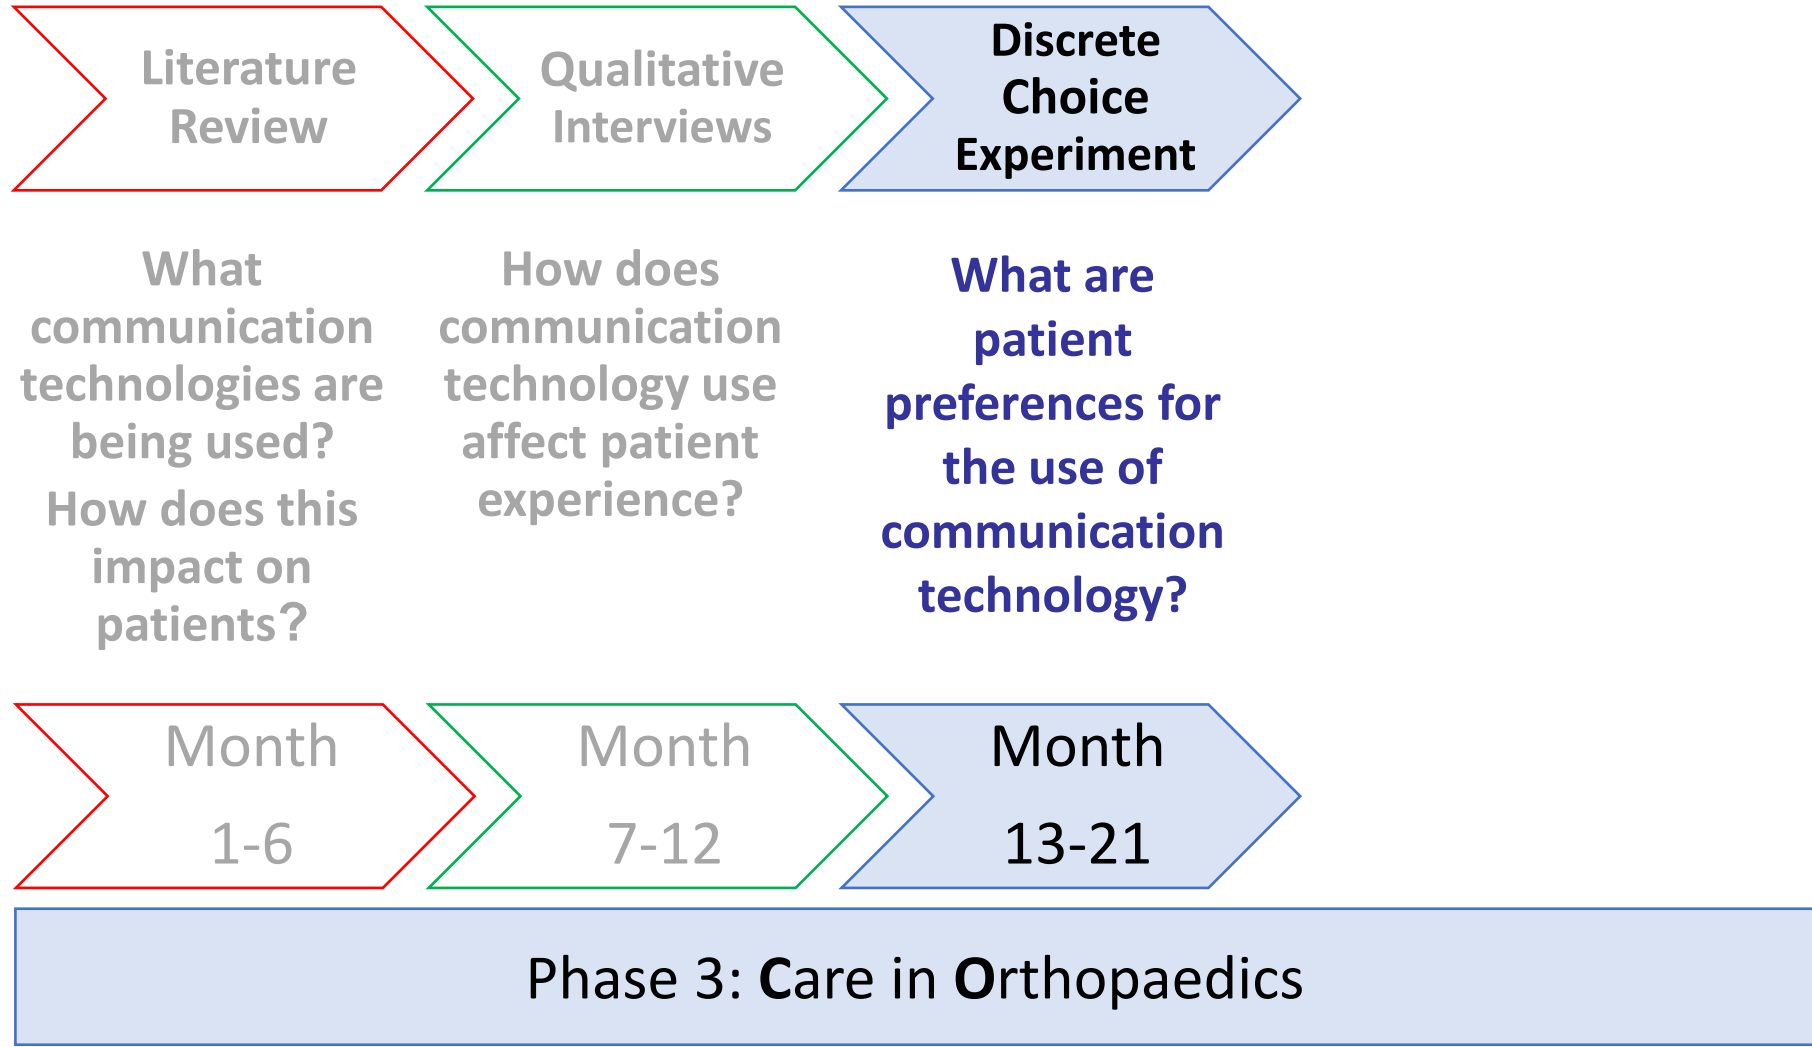

Phase 1: **Effectiveness of Communication Technology**

Plan of Research

Plan of Research

Plan of Research

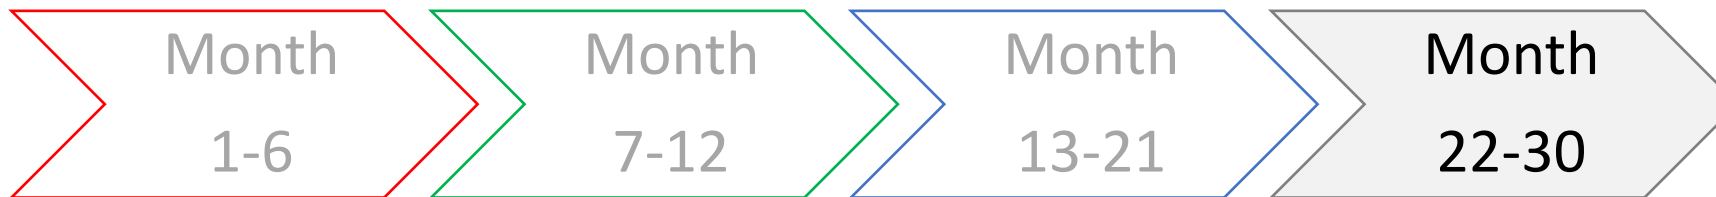

What communication technologies are being used? How does this impact on patients?

How does communication technology use affect patient experience?

What are patient preferences for the use of communication technology?

What does a communication technology supported pathway look like?

Phase 4: The CONNECT Project

End Product

And beyond?
