## Self Adhesive Prints

5 BUSINESS DAYS

**Print and Stick** 5 mil self adhesive-backed matte material. Perfect for wall graphics, this matte printable fabric is designed for smooth, effortless application to a wide range of flat surfaces and it will not rip, wrinkle, or stretch in production making it easy to cut into any shape. Application ideas include wall cut-outs, wall murals, decals, signs, window graphics, and more.

**Tough Vinyl** is a more permanent 5-mil adhesive-backed vinyl, yielding colorful photos to be printed on this durable, weather-resistant surface. The TOUGHcoat™ layer provides such exceptional resistance to water and scratching that graphics printed on this material will last up to 8 months outdoors without lamination. Prints will last up to two years outdoors when laminated. The strong, permanent solvent-based adhesive sticks to most popular sign substrates and removes cleanly for up to 90 days. Application ideas include POP/ indoor signage, vehicle graphics and temporary outdoor signage.

## Drymounting and Laminating

**4 ADDITIONAL DAYS (NOT INCLUDING PRINT)**

Foam-cor®: 3/16" thick lightweight board. Ideal for custom framing or short term mounting on its own. Available in black or white.

Gatorfoam®: 3/16" thick heavy-duty foam board. A more robust option which is less likely to bend or warp due to changes in humidity. Available in black or white.

3mm Sintra: Expanded rigid PVC board, very versatile substrate that unlike Foam-Cor or Gatorfoam can be curved or bent slightly.

Dibond: Archival - rigid - light - two pre-painted sheets of .012" aluminum with a solid polyethylene core mounted with Seal Print Mount 831 adhesive.

### Laminating:

Perfect for Fine Art, photographic and plain paper media. They can be dusted or wiped with a damp cloth. **Standard Laminate:** Lustre - Also available in Matte

## Ready to Hang - Fine Art Canvas

**10 BUSINESS DAYS**

Using the latest inkjet technology we create stunning finished prints from your favorite images. Have your image wrap around the edge of the canvas, or finished with a white or black edge. All prints come ready to hang in the size you want. If there is a size you would like and you don't see it listed please ask.

We now offer a step-up to our inkjet Canvas offering with **Pro Satin PLUS** Canvas prints. First we start with heavyweight Breathing Color Crystalline Satin canvas and stretch on the Professional 1.75" frame. We then staple the material to the back and complete it with finish tape. The result is a stunning canvas print with a higher gloss, greater d-max and beautiful presentation.

## Ready to Hang - Metal Prints

**10 BUSINESS DAYS**

Create unique prints on Chromaluxe® aluminum panels with a high gloss finish and a luminous quality. Metal printing is just that – printing on metal. We use a special high heat sublimation process resulting in images that have an amazing depth. These prints have a similar lifespan to traditional photographic prints. The Vibrant Glossy Metal prints have a white backing resulting in a traditional look, while the Brushed Metal Glossy print allows the brushed metal to show through on lighter areas of the image. All prints come ready to hang with smaller sizes having the option to come with an easel stand in place of a wall hanger.

## Ready to Hang - Plaquemount, Floatmount and Acrylic Prints

**10 BUSINESS DAYS**

**Plaquemounts** are mounted on 3/8 inch thick MDF (wood) base with a beveled and hand painted black edge. Prints come with a UV laminate and a pre-cut slot on the back ready for hanging.

**Floatmounts** are mounted on 1/8 inch tempered Masonite and have a recessed back that makes the print appear to 'float' away from the wall. Prints are laminated with a UV laminate. Floatmounts are much lighter than Plaquemounts, and are therefore a great choice for mounting large prints.

**Acrylic Prints** Glossy prints are face-mounted on a clear Acrylic and then finished as a Floatmount or Plaquemount option. This method provides added brilliance, depth, and an intensity unattainable by standard finishing.

*Prices includes photographic print and laminate. All print surfaces are available. Prints must be laminated with one of your choice: matte, glossy, leather or canvas with matte the default*

## Print from Print

**10 BUSINESS DAYS**

A great inexpensive way to copy photographs, we copy photographic prints ranging in size from wallets to 8x12 in colour or B&W. As this process is automated, Images should also be free of dust, free of tears, tape, staples and any other defects that can interfere with the scanning process. With this service there is no original image cropping or custom sized copy prints. If image cropping or custom sized prints are required we need to do a digital copy negative and the appropriate size.

PRINT SIZE	PRICE
2.5x3.5 Wallet (sheet of 2)	\$1.00
4x4	\$1.00
3.5x5	\$1.00
4x6	\$1.00
4x5/5x5	\$1.00
5x7	\$3.50
8x10	\$5.99
8x12	\$6.99

## In-Store Kiosks

**INSTANT**

Our picture kiosks offer you a great way to print your digital holiday shots, or to make copies of your precious family photos. You can easily crop, adjust colour and density, and even reduce red-eye on your pictures before printing. At most locations, print 4x6, and 8x10's instantly or send your files to the lab through the kiosk to print standard sizes

PRODUCT	PRICE
4x6 Instant Print (from digital file)	\$0.59
4x6 Instant Print (from original photo)	\$0.89
5x7 Instant Print (from file)	\$2.99
6x6 Instant Print (from file)	\$2.99
8x8 Instant Print (from file)	\$3.50
8x10 Instant Print (from digital file or original photo)	\$4.99
8x12 Instant Print (from digital file or original photo)	\$5.99

## Colour Film Developing

6 BUSINESS DAYS

We process, scan and print colour negative, black & white negatives and E6 slide film. We do all three processes in-house and process Colour negative film every day, Black and White and Slide Film twice per week. We send out 4x5 and larger sheet film which is a three week turn around.

Blank Rolls are free

Cross Processing of E6 film \$3.00 per roll extra

Push processing on most all rolls is an extra \$3.00. However, specifically for colour negative 135-36 exposure or 220 format film is sent to another lab and is an additional \$20.00 per batch

\* 4x5, 5x7 and 8x10 sheet film is processed at a outlab. There is a \$20.00 additional charge (per batch) on all orders to accommodate for shipping charges.

Sleeve in Print File \$2.50 per roll

\*\*\* 110/126 film developing that requires prints are two weeks in-lab

Get your roll of 135 or 120 film scanned to CD at time of developing for only **\$4.99**

Receive images on a 16GB USB (USB 3.0) **ADD \$7.99**

Additionally you can have your files sent to you via WeTransfer for \$4.99. Orders requesting WeTransfer must be prepaid.

## Reprints and Enlargements - Film

**7 BUSINESS DAYS**

We make prints from all of your favourite colour negative, black and white negative or slide film. Sizes including 35mm, 120, 126, APS, 110 and many older odd sizes of film. All prints are made on photographic paper and are available in matte or glossy surface, with or without borders. We inspect every frame to consistently give you the best prints available - every time.

PRINT SIZE	PRICE
2.5x3.5 (sheet of 2)	\$0.75
3.5x5	\$0.75
4x6 (from 35mm)	\$0.75
4x6/4x7 - From APS colour film	\$0.75
5x5	\$1.25
5x7	\$2.00
8x8	\$4.00

12x12	\$12.99
12x18	\$15.99
<b>Larger Sizes Available - Pro scan (page 18) plus the price of a digital print (page 2)</b>	

\$5.00 cropping charge per print, per size

\$2.00 handling fee per image for single cut 35mm and ALL 110, 126, 127, 620, and other odd sized film for prints 12x18 and smaller. This surcharge does not include single cut 120 film in a larger format than 6x4.5 (6x6, 6x7, 6x9) as they are accepted in our auto carrier.

## Photo Calendars

**7 BUSINESS DAYS**

We offer three diverse calendar options. Our [donsphoto.com](http://donsphoto.com) online ordering system has a terrific variety of template options for Calendars. The first option is a 12 month press printed 11x8.5, center stapled calendar which is great for an every-day calendar. The second 11x8.5 calendar is center coil bound, on photographic paper and the images are sharper and more vibrant than the press calendar. The third option is a 12x18, 12 month, single sided calendar again on photographic paper. The press calendar is on paper stock and is the easiest to write on if you want to make notes.

ITEM	DESCRIPTION	PRICE
12 Month press printed calendar	12 months on 8.5"x11" press printed, stapled in the center.	\$27.99
12 Month Photographic paper 11x8.5	12 months on 8.5"x11" photographic paper, coil bound center.	\$44.99
12 Month Photographic paper 12x18	12 pages and months on 12x18 Kodak Endura paper, coil bound top.	\$44.99
12 Month 5x7 calendar	12 - 5x7 prints with image - one per month	\$16.99
Single page 12x18 Calendar	Single 12x18 with 12 months and one image	\$11.99

\* there is a \$10.00 per order charge on calendar orders from prints, negative or slides.

## Photo Books

**8 BUSINESS DAYS**

We offer four types of press printed books. 10x8 Faux Leather hardcover with window on front cover, a 6x8 softcover, a coffeetable book and a layflat photographic album. Design your book today at [www.donsphoto.com](http://www.donsphoto.com) adding pages, customizing layouts, adding text. We have the right book for you.

ITEM	DESCRIPTION	PRICE	EXTRA PAGES

Gather Box - Video Tapes	Up to 10 video tapes to USB	179.99

## Bulk Print Scanning

**10 BUSINESS DAYS**

When you have prints to scan but do not have enough to order a Gather Box- Prints, Bulk Scanning is a perfect way to digitize just a few prints. Gather your prints from wallet size to 8x10. Prints must be loose, unmounted, free of tape or staples

# OF PRINTS		
50-199 (minimum order of 50 or \$19.50)		\$0.45
200-499		\$0.32

## Consumer Film Scans

**6 BUSINESS DAYS**

The most economical way to transfer negatives or slides to digital format. This service is available from 35mm, APS and 120 film. We can scan your roll at the time of developing, or from your existing negatives. Please NOTE! All other sizes of film must be Pro Scanned (see Pro Scan section for pricing). All colour negative film and slide films are scanned with Digital Ice™ which is a automatic dust removal system that removes most (not all) dust and some scratches. Due to technical limitations, Black and White film cannot have Digital Ice™ applied.

	135	120-6x4.5	120-6x6	120-6x7
Medium Resolution	1024x1536 (4.5MB)	1324x1024 (3.9 MB)	1024x1024 (3 MB)	1024x1255 (3.7 MB)
High Resolution	2048x3072 (18 MB)	2645x2048 (15.5 MB)	2048x2048 (12 MB)	2048x2510 (14.8 MB)

FILM	PER ROLL <i>(at time of develop)</i>	1-9*	10-24*	25-49*	50-99*	100+*
135 or 120 film Medium resolution	\$4.99	\$2.99	\$2.49	\$1.99	\$1.79	\$1.29
135 or 120 High resolution	\$9.99	\$3.99	\$3.39	\$2.99	\$2.79	\$1.99
220 Medium Res	\$4.99	\$2.99	\$2.49	\$1.99	\$1.79	\$1.29
220 High Res	\$14.99	\$3.99	\$3.39	\$2.99	\$2.79	\$1.99

\*This is a per frame charge from individual slides or negative strips of pre-processed film.

These scans crop 2mm around the edge of the frame, very full images with text should be Pro Scanned.

The cost of CD is included in the scanning price or you can have images returned on 16 GB USB 3.0 for an additional \$7.99

## Pro Scans from Film or Prints

**6 BUSINESS DAYS**

Pro Scans are for when you need to step it up. We scan Colour or B&W negatives, slides and prints. These RGB, 8 Bit, sRGB scans are processed with Digital Ice (colour only negative -Digital Ice does not work with B&W film or on prints ) and dust busted in Photoshop. Each file is carefully optimized and saved to a CD.

CD is included in the price. \$4.99 for additional CD or DVD. \* = per frame Quantity categories are for a variety of negatives or slides.  
The cost of CD is included in the scanning price or you can have images returned on 16 GB USB 3.0 for an additional \$7.99

Receive images on a 16GB USB (USB 3.0) ADD \$7.99

## Digital Copy Negative and Oversized Digital Copy Negative

**6 BUSINESS DAYS**

We can copy up to 11x17 and anything oversize (above 11x17) such as photographs, paintings, artwork up to 20 x 40 inches. All work is done in a controlled environment producing excellent digital copies of original pieces. The Digital Copy negative oversized is not only ideal for larger pieces but also for smaller work that may have a lot of reflections such as glossy prints that have bends or creases, prints that cannot be removed from behind glass. A copy of the digital file is given to you on CD or on optional USB.

ITEM	DESCRIPTION	PRICE
Digital Copy Negative	Print to CD - up to 11x17	\$9.99
Digital Copy Negative Oversized	Print to CD - Original larger than 11x17 to a max of 20x40 inches	\$39.99

The cost of CD is included in the scanning price or you can have images returned on 16 GB USB 3.0 for an additional \$7.99

## Restoration and Manipulation

**7 BUSINESS DAYS**

Using the latest digital imaging techniques we restore tears, blemishes, cracks, faded colour and density. We can remove, add people, or other elements to the photograph, hand-colour black and white images as well as remove distracting objects in the background by replacing the original background with a studio backdrop image. (See in store for samples)

All work is saved to a digital file and returned to you on a CD with no harm to the original. We have created 5 categories of retouching. Hand colouring and the removal of background objects are usually classified as a heavy restoration, however it may be as low as medium depending on how much work is required.

	LIGHT	MEDIUM	MED-HEAVY	HEAVY	GROUP HEAVY
<b>Retouching Level</b>	<b>\$34.99</b>	<b>\$49.99</b>	<b>\$69.99</b>	<b>\$79.99</b>	<b>\$99.99</b>

The cost of CD is included in the scanning price or you can have images returned on 16 GB USB 3.0 for an additional \$7.99

Receive images on a 16GB USB (USB 3.0) ADD \$7.99

## Professional Digital Copywork/Retouching

**7 BUSINESS DAYS**

Bring your original and we'll capture it digitally, make any colour management decisions required and provide you with a proof for your approval. The image can then be output to your specifications. This service is designed for originals such as paintings where colour fidelity in each tone is paramount as our experts painstakingly adjust each channel for optimum matching. Additionally, other specialized digital work can be quoted on a per hour basis. It is best to visit us in person to discuss your needs.

Service	Price
<b>Originals up to 20x40</b>	<b>\$119.99</b>
<b>Digital retouching work</b>	<b>Quoted on a per job basis</b> <b>\$80.00/hr</b>

The cost of CD is included in the scanning price or you can have images returned on 16 GB USB 3.0 for an additional \$7.99

Bookmark	2"x6" laminated, image on one side bookmark, set of 4, hand cut	\$8.95

## Video Transfers: Tape to MP4

5 WEEKS

We transfer VHS, s-VHS, VHS-c, 8mm video, hi-8 video, digital 8 video, mini-dv, mini DVD, SD cards to MP4 files. You will receive a better quality transfer and more universal file format if you have your VHS or other tapes transferred to MP4 file format on USB or supplied hard drive. For transfers to MP4, our 16 GB usb is provided and included in the price. For larger orders we can accept an external Hard Drive but it must be a new drive. Approximately 5 GB of storage is needed for each hour of video. Yes, on special request we can have a transfer made into a traditional DVD but we will make and charge for the MP4 files first then convert and charge for the DVD.

*If a tape is blank or has copyrighted material and therefore no transfer can be done, there is a \$20.00 fee per tape. The reason for this is that we must run each tape in it's entirety.*

Any recorded television show, movie, purchased movies or program that has been broadcast are considered copyrighted material and will not be transferred.

DESCRIPTION OF SERVICE	PRICE MP4
Video tape to MP4 - 1 tape to 16GB USB (included in price) Each tape	\$42.99
DVD - This is a DVD playable in a DVD player. This is a special request and an additional charge for every 2 hours	\$14.99
Extra copy USB or DVD copy when ordered initially	\$7.99

## Video Tape Repair

5 WEEKS

Most physically damaged video cassettes can be repaired or spliced. When repairing the actual tape, damaged portions must be removed.

If a tape requires a physical splice, it is highly recommended that it be copied to DVD or digital file (see above video transfer prices) and not played in a VCR. Splices made to video tapes are likely to create a head clog, meaning the VCR must be opened and cleaned.

DESCRIPTION OF SERVICE	PRICE
Splice video tape	19.99
Replace cassette shell (add to above price is necessary)	19.99

## Video Transfers: Foreign Video

5 WEEKS

Foreign tape (VHS only) and DVD conversions can be done, to and from foreign source, to and from North American DVD (NTCS).

It is possible to convert *most* foreign DVDs to North American standard DVDs, *but not all*. Not only are there different video standards, there are also different regional standards and some manufacturers of DVD camcorders have added copy guard to their internal recording software. This is not an issue of copyright, but an issue of companies trying to encourage brand loyalty... not all can be dealt with. DVDs recorded in a Sony Camcorder are particularly of issue.

Some artifacting may occur in the converting process. Scenes with a lot of movement can lose some fluidity.

Digital Files for foreign conversions (SD AVI or SD MOV) are available upon request.

DESCRIPTION OF SERVICE	PRICE DVD	PRICE MP4
Up to 2 hours	\$49.99	\$49.99
Combine 2-4 sources up to 2 hours	\$49.99	\$49.99

Customers must sign off and take responsibility for any copyright material.

**No extra copy rate. Full price for additional copies.**

## Audio Cassettes to MP3

5 WEEKS

Transfer from standard audio cassette to MP3 files. A USB thumb drive should be included, if one is not we will use our Print Refinery 16BG usb drives for an additional \$7.99

Minimum Charge \$39.99

DESCRIPTION OF SERVICE	PRICE
Audio Transfer - each hour charge in 1 hour blocks Per additional cassette	24.99 \$9.99

Minimum Charge of \$39.99 per order.

## Home Movie Reel Film Transfers to digital

**5 WEEKS**

All motion film is transferred on new frame-by-frame transfer units. These units basically take a 1920x1080 hi res scan of every individual frame and those frames are reassembled into a playable video file. These individual jpeg images of each frame are what are known as the Master Image Sequence (MIS) . A MIS is perfect for the customer who wants a backup that will allow them high quality, flexible format that can be easily converted to other formats in the future. Each reel of film will have it's own folder with each and every frame of that reel accessible as a jpeg file.

Transfer is to HD - MP4 or HD - .MOV. Transfers to MP4 or .MOV require a flash drive or external hard drive. A quick rule of thumb is that you will need about 4 GB of storage for every 50' reel of film that you are having transferred. This drive must accompany the order or there may be delays in completion of the order while a drive is sourced. We can transfer to DVD on request, additional DVD copies must be ordered at the time of transfer. Extra copies of a DVD at a later time are \$25.00

Each new reel of film being transferred to DVD will have a new chapter title on the DVD menu. Chapter titles can be provided by the customer (up to 2 rows of 20 characters for each reel of film). If a chapter title is not provided we will title the chapter with the number in which they were transferred. Efforts are made to try and place film in chronological order is possible. Minor film repair is done at no charge. If extensive repairs must be done, you will be notified of any extra charges before we proceed.

IMPORTANT NOTE: The charges are now \$0.49 per foot AND a charge of \$3.00 per reel on every order. The actual footage count is calculated by our scanner.

DESCRIPTION OF SERVICE		Price
Price per foot		<b>\$.49/ft</b>
Charge Per reel	Minimum Charge of \$39.99 per order.	<b>\$3.00/reel</b>

Chapter Titles: \$3.00 per title (plus reorganization price if applicable).  
 Extra Copy DVD - \$15.00  
 Add a DVD or MIS to MP4 transfer is \$9.99 per reel regardless of that reel length.

A rough guide: 3" diameter = 50 feet; 4" diameter = 100 feet; 5" = 200 feet; 6" = 300 feet; 7" = 400 feet. The actual footage count is calculated by our film scanner.

## Movie Film Processing and Very Old (Seattle Film works) still film

12 WEEKS

All still or motion picture film, once developed is scanned, digitally enhanced, is burned to CD. We process what is positive colour film as black and white (and as a negative) as that is the absolute best way to ensure that some sort of image is produced. After developing, it is recommended that motion picture film be transferred to Digital File (MP4 or MOV). Much of the motion picture film is developed into a B&W negative in order to salvage something from it. Some form of transfer in these cases is necessary so that it is viewable by the customer.

Though most types of film can be developed, the quality and success rates depend on many factors. Some films tend to come out very well, some okay, and some very poor. It must be noted that these films are often decades beyond their expiry dates. See lab for more information with specific details as to the film brand, format, and exact type. Kodachrome film can only be processed to Black and White.

The retrieval of recognizable images from still film is guaranteed or there is no charge. "Recognizable" does not mean "of good quality", it only means that there is a physical image within the frame of the negative.

Depending on when the film is received, processing may take up to 6-8 weeks.

DESCRIPTION OF SERVICE	PRICE
All still film developing (including Disc film) files returned on usb	\$89.99
Super 8 Cartridge processed as Black and White and scanned as MP4 (each cartridge) MINIMUM CHARGE FOR BLANK IS \$40.00	\$99.99
16mm processed as Black and White and scanned as MP4 (per100') MINIMUM CHARGE FOR BLANK IS \$80.00	\$189.99
Prints from Disc film (already developed)*	\$44.99

\*Disc film scans are 2400dpi. Though fairly high resolution, the negatives are so very small, and digital artifacting will show up on prints over 5x7
