

**Applied Materials Technologies Inc.**

A professional design and engineering firm

**HEATHER L. ENGLAND**  
**DIRECTOR OF BUSINESS DEVELOPMENT**  
[hengland@amtiengineering.com](mailto:hengland@amtiengineering.com)

Ms. England is the Director of Business Development with Applied Materials Technologies Inc. (AMTI) and oversees its steady growth as it continually develops into a full service engineering consulting, investigation and testing organization. AMTI is a preeminent multi-disciplined engineering consulting firm with a wide range of expertise in manufacturing, fabrication, inspection, quality control and accident reconstruction.

Ms. England has previous insurance and business experience including establishing policy and procedures along with setting up internal auditing checks and keeping records to maintain a Best Practices elevated status within her organizations. Her consistency in demonstrating exemplary proficiencies within her department and producing positive results with her attention to detail, timeliness in resolving client concerns and a team-player attitude are qualities that AMTI believes are of the utmost importance. She has served as the first point of contact for clients and other outside agencies to provide prompt, courteous and knowledgeable assistance in an efficient and effective manner. Her past experience also includes reorganizing and restructuring staff within her company's central processing center. She has customer service experience along with being an energetic and hardworking individual coupled with her adept written and verbal communication skills making her a vital associate to AMTI.
