

Forms, Calls, Prescriptions and Other Extras

Many services our families need at Charleston Pediatrics are not covered by insurance plans. We offer these extras individually for a charge of \$10- \$30 or through our Forms Plus Monthly Plan. Examples include:

- Daytime and nighttime phone calls for advice unrelated to an issue covered at a visit within the last week.
- Prescription facilitation of referrals, including those originated by school or specialty service request.
- Claims facilitation
- Completion of all forms including those related to vaccines, disabilities, sports, school, camp, and medical equipment.
- After-hours Call Service charges

Please choose one of the following payment options.

- PAY-AS-YOU-GO:** Pay individually for non-covered services as they occur: \$10-\$30. These charges will appear on your bill labeled as "ADMINISTRATIVE CHARGES"
- FORMS PLUS PLAN:** Monthly payment of \$15 per family/\$10 per child for non-covered extras.
- RX Plan \$30.00 Monthly**

Your decision to utilize these services does not impact in any way the medical services we provide you, nor does it replace your usual follow-up examinations or sick visits with your physician. Additionally it does not change our after hour's availability.

Forms Plus is offered on a recurrent monthly basis. You may discontinue it at any time which will automatically convert you to the Pay-As-You-Go option. You must pay individually for any service completed before Forms Plus can become active.
