

Santiam Tree Farm

Located 25 miles east of Sweet Home, this 120 acre forest is surrounded by the U. S. Forest Service and the South Santiam River. A trail from the property connects to a USFS trail system and across the highway there is access to a Wilderness Area.

This site is for primitive camping only with a short hike to the camp site. The double outhouse accommodates about 40 Pathfinders. There are year around streams, however the water in the creek should be purified before using.

The Pathfinder Challenge was held here in June, 2008, where they experienced Canoeing and Rock Climbing.
