

Play Dough (p. 56)

- 1 cup flour
- 1 cup water
- 1/2 cup salt
- 1 tablespoon oil
- 1 teaspoon cream of tartar
- 1 teaspoon food coloring

Combine flour, salt and cream of tartar in a saucepan. Add the liquids gradually to the dry ingredients. When smooth, cook over medium heat, stirring constantly until the mixture forms a ball. Remove from heat and knead until smooth.

This dough is very pliable and long lasting if stored in refrigerator. It will be more elastic than uncooked play dough. Cake paste food coloring (from a cake decorating store) gives more vibrant colors than regular food coloring.
