

Mathematics

YEAR 5 Curriculum Overview

In Year 5, Mathematics is taught five times per week for a total of five hours and 20 minutes. We use the White Rose Scheme of Learning as a basis for our planning and teaching. To support all the children, we compliment this with additional extension and support activities and fluency practice. The overview of the scheme in Year 5 can be seen below. We use this as a basis for the order and content of what we teach without sticking to the timeframe rigidly.

More detail about the content of each unit of learning can be found on the White Rose Website here: <https://whiterosemaths.com/resources/primary>
