

Number Ordering

Easy	Middle	Hard
<p>Missing numbers. Make a number line or ladder on large paper from 0-6. Can your child write in or say the missing number? E.g. 2 is missing.</p>	<p>Missing numbers - Children to make their own number lines or ladders from 0-10 using large paper strips. Are they in the correct order? Play missing numbers – hide a number with your hand. Which is missing? How do you know?</p>	<p>Missing numbers - Children to make their own number lines or ladders from 0-12 using large paper strips. Are they in the correct order? Play missing numbers – hid a number with your hand. Which is missing? How do you know?</p>
<p>Outside – write numbers 0-10 on large individual pieces of cardboard. Muddle them up - Children to try and put the numbers in the correct order as fast as they can and then jump/hop on the numbers, saying each number as they jump.</p>	<p>Outside – write numbers 0-12 on large individual pieces of cardboard. Muddle them up - Children to try and put the numbers in the correct order as fast as they can and then jump/hop on the numbers, saying each number as they jump.</p>	<p>Using number line on fence – cover 2 numbers with paper/post it. Work against your child or use friends or siblings to try and race to guess which number is missing. How do they know? (0-20).</p>
<p>Outside - Find some old clothes or socks that are not needed anymore – write numbers 0-10 on these using a permanent marker. Ask your child to try and peg the clothes on the washing line in the correct order.</p>	<p>Outside - Find some old clothes or socks that are not needed anymore – write numbers 0-12 on these using a permanent marker. Ask your child to try and peg the clothes on the washing line in the correct order.</p>	<p>Outside - Find some old clothes or socks that are not needed anymore – write numbers 0-20 on these using a permanent marker. Ask your child to try and peg the clothes on the washing line in the correct order.</p>
<p>Sticky numbers – Write out numbers from 0-10 on individual post it notes – Ask your child to try and stick them in the write order. They could stick them on teddies or toys to make it more fun.</p>	<p>Sticky numbers – Write out numbers from 0-12 on individual post it notes – Ask your child to try and stick them in the write order.
