Cosmedent Contribution Supports America's ToothFairy Programs for Children in Need

(May 30, 2017, Charlotte, NC)– Underserved children around the nation will have increased access to quality oral healthcare thanks to a recent product donation from Cosmedent, Inc. made to America's ToothFairy: National Children's Oral Health Foundation (NCOHF).

Valued at \$139,089, the donation consisted of various dental composites and core build up materials, including Cosmecore and Renamel products. The donated items were distributed to 10 member clinics of the America's ToothFairy Dental Clinic Resource Program, a national network of non-profit dental clinics providing comprehensive oral health services to underserved children and families.

In addition to product donations, member clinics of the America's ToothFairy Dental Clinic Resource Program receive educational resources, equipment and financial grants to support the expansion of dental services for children in need.

The CareFIRST Carolina Foundation was grateful to be among the recipients of this generous donation. Located in Hartsville, SC, the CareFIRST Carolina Foundation works to support dental services and programs for children and families in need. "We would like to express our great appreciation of Cosmedent's generous donation of assorted oral restorative products for our MILES OF SMILES school-based children's dental program," said Mark Sobiski, Foundation Director at the CareFIRST Carolina Foundation. "These products wonderfully complement our effort to provide the most comprehensive and highest quality dental care available here in our area. They will go a long way to assist our economically struggling families."

"Cosmedent is proud to support the mission of America's ToothFairy and the efforts of its non-profit dental clinics serving children around the country," said Michael O'Malley, President of Cosmedent. "We continue to support children's oral health initiatives, and we are pleased to provide this donation to ensure these children and their families have access to quality oral health services in their communities."

"We are very grateful to Cosmedent for this valuable product donation and their continued commitment to the improvement of children's oral health," said Jill Malmgren, Executive Director of America's ToothFairy. "This donation will allow the members of our Dental Clinic Resource Program to provide invaluable services and care for underserved children across the country."

About Cosmedent

[Cosmedent, Inc.](http://www.Cosmedent.com) was founded in 1982 to meet the early demands of educating dentists in the use of composite materials for esthetic dentistry. As one of the pioneering companies in aesthetic dental education, Cosmedent operates the Center for Esthetic Excellence, a highly interactive, hands-on
