Subject: OPRA Migration to new Pillar SIP Platform - **Webinar on May 26, 2021 @ 2:00 PM ET**

What You Should Know:

As previously [announced](#), OPRA will be migrating to the new Pillar platform on **July 26, 2021**. Built using the architecture of the NYSE Pillar platform, OPRA Pillar is distributed, scalable, resilient, and designed for low latency (e.g., under 20 microseconds at the median).

Preparing for the OPRA SIP Migration to Pillar:

Join SIAC leadership to review the status of this initiative including the timeline and plan to migrate the OPRA SIP to the NYSE Pillar technology platform on July 26, 2021. In this webinar we will review the project plan, participation in the test environment before launch, certification testing, and OPRA SIP changes. There will be time reserved for Q&A at the end of the presentation.

Speakers:

- **Brian Faughnan**, Head of National Market Systems
- **Mike Collazo**, Head of NMS Product Planning & Management
- **Joe Gostomski**, NMS Product Planning and Management
- **Anand Pradhan**, Head of NMS Technology
