

Welcome back to Reception

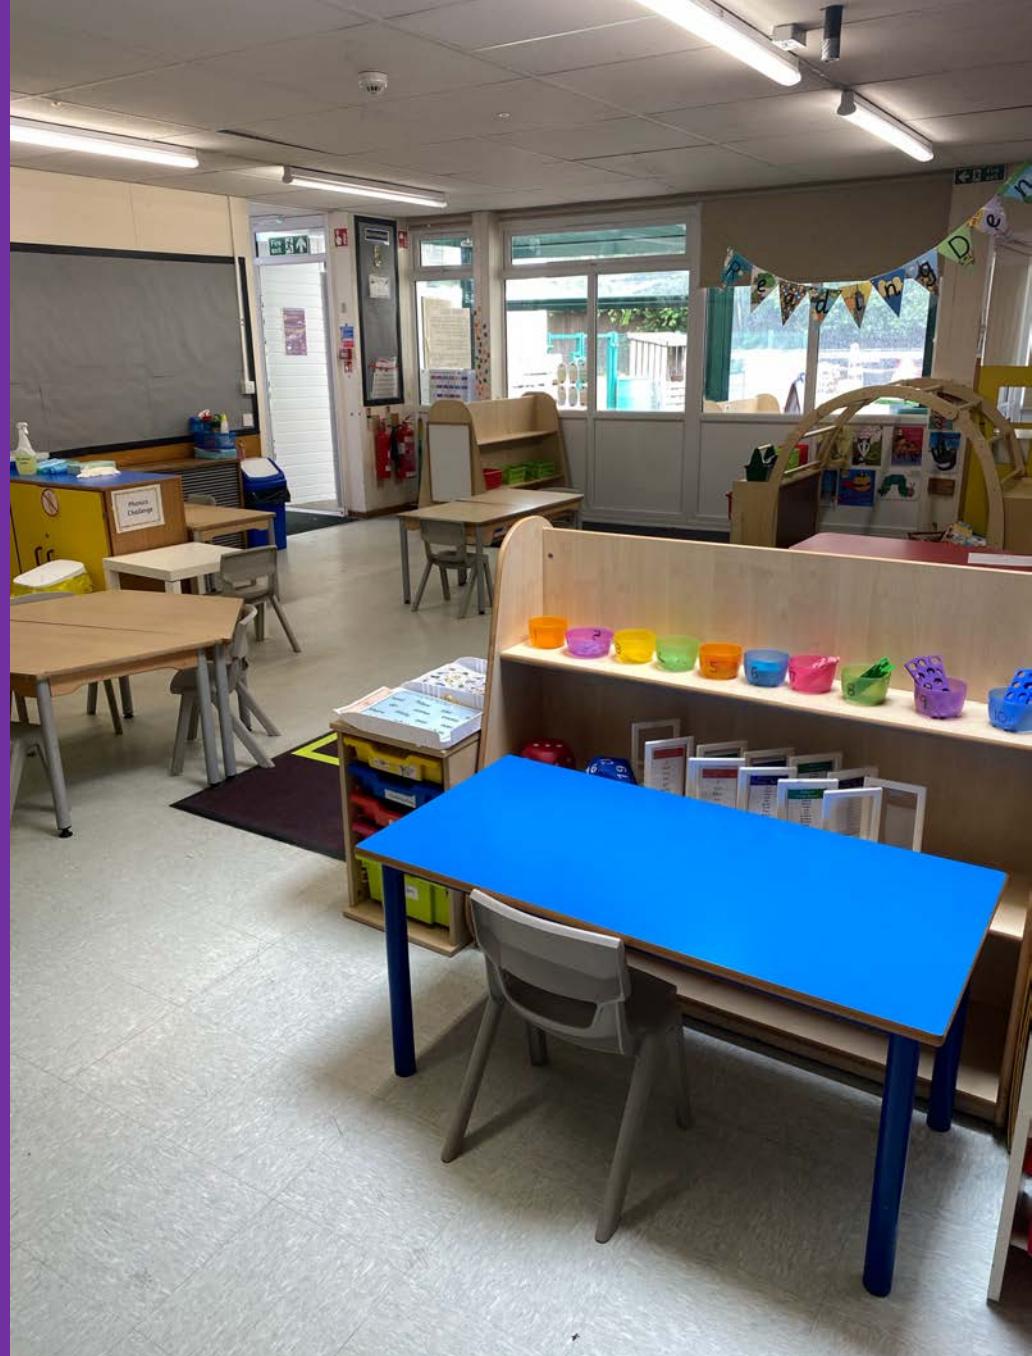

A member of

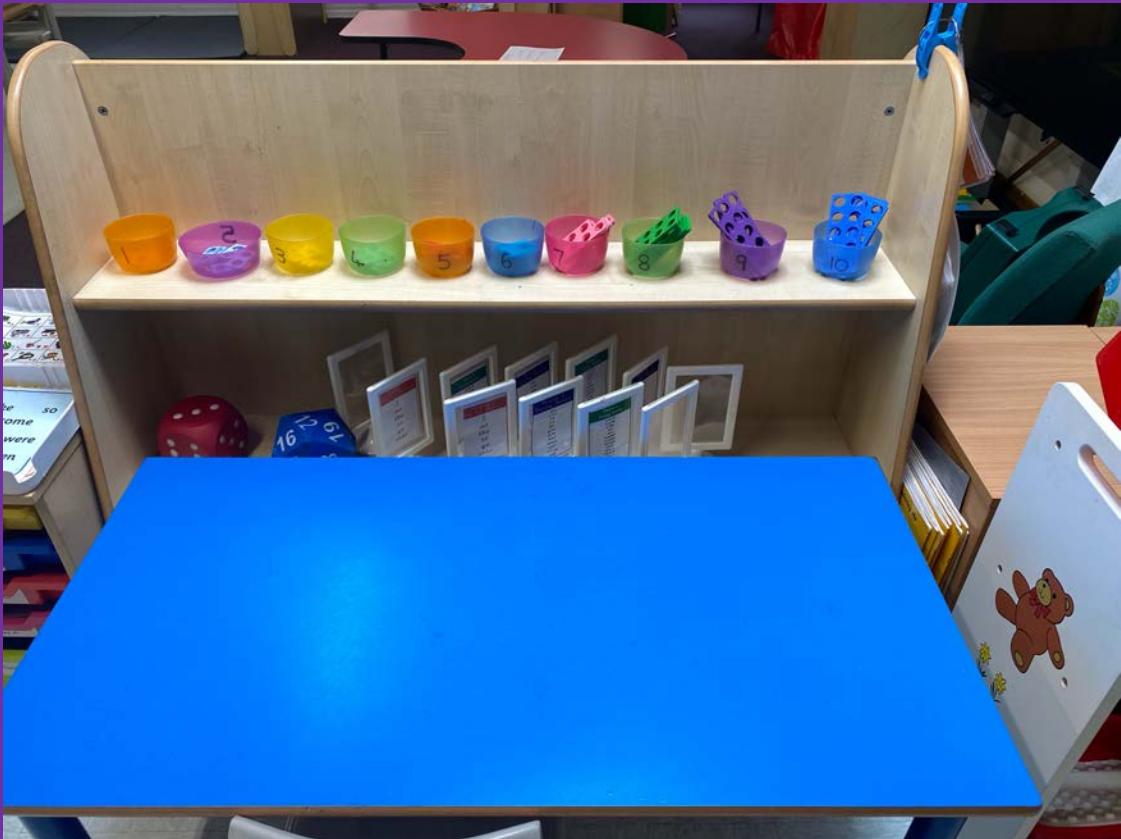

We have made a few changes to the classroom and outdoor area to help keep you all safe and we would like to show you some of the things that will be different.

This is our new maths area. Can you spot any different equipment? Which things do you recognise?

Some things have hardly changed at all, like our snuffle station and our fruit and vegetable shop in the role play area.

We haven't got quite as many toys to play with in our construction and small world area but we have got some of our favourites and a lovely new mat to sit on when we play in there.

Our reading den hasn't got a canopy or cushions anymore but we have chosen some of our favourite books to read in there.

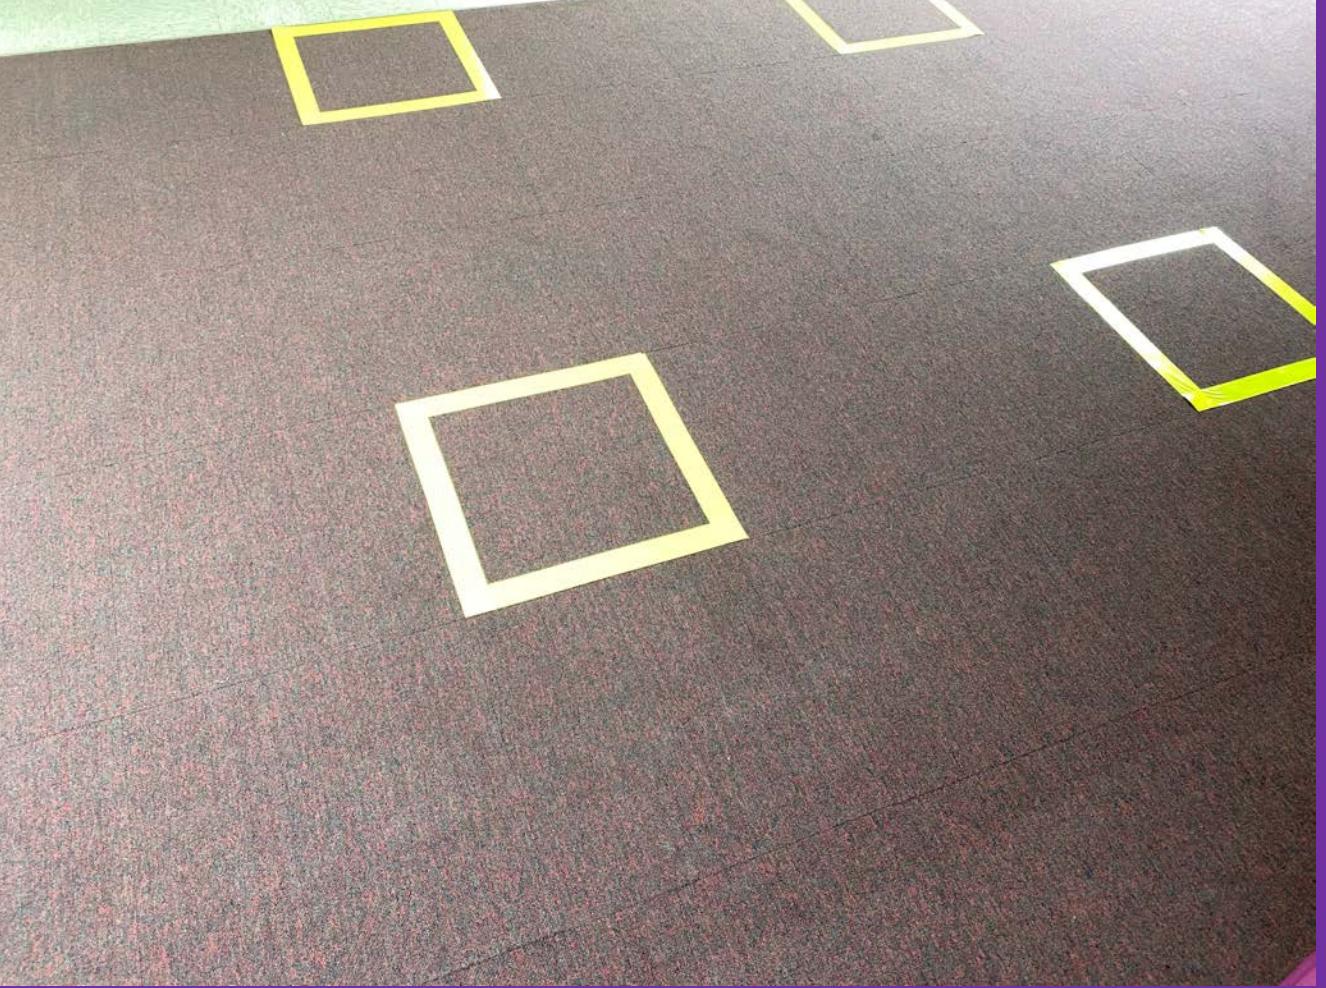

We still have our glueing and sticking area with a super big table with more space for you to make models.

We have a new art area with lots of different coloured paints.

We have some special squares to sit in when we have carpet time. There is one for each of us.

We have created a special place to play under the canopy.

We can still play outside in the outdoor area but some of our equipment isn't safe for us to use just at the moment.

We have used special red and white tape to show you which areas we can't play in for now.

You will each have your very own pack of exciting things including your own glue stick, your own whiteboard and pen, scissors, crayons, pencil and lots of other surprises.

Our school dinners are going to be very exciting as we are going to be having a special packed lunch delivered to our classroom everyday. We won't be eating in the school hall but we will be able to picnic outside or in our classroom if it is raining.

We won't have school milk or fruit delivered so you might like to bring in your own fruit or veg.

We can't wait to welcome you back into our special Reception class bubble!

If you have any questions or worries about coming back to school, tell your grown ups and they can ask questions for you on Tapestry so that we can see them and try to answer them.

We would also like to hear what you are most excited about.
