

## Limelight Hydrangea (Tree Form)

Growth Rate Fast Mature Height 6' Mature Spread 7'

Zone 4 Temps (C) -34.4 to -28.9° Temps (F) -30 to -20°

The Limelight Hydrangea tree is a beautiful specimen that is grafted on a standard trunk to bring the beautiful full foliage and flowers into eye level. The tree bursts into full bloom in midsummer. The flowers push lime green, which later fade into white and then brown in the fall.
