N.A. - Information is not statistically meaningful due to an insufficient number of portfolios in the composite for the entire year.

Small Cap Value Composite contains fully discretionary small cap value equity commission accounts. This composite has no minimum requirement and for comparison purposes is measured against the Russell 2000 Value index. The three-year standard deviation for both the Composite and benchmark is presented once a full 36 month period of returns has been recorded.

Snow Capital Management L.P. is a registered investment adviser. Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. Past performance is not indicative of future results. The firm maintains a complete list and description of composites; policies for valuing portfolios, calculating performance, and preparing compliant presentations are available upon request.

Beginning March 1, 2015, composite policy requires the temporary removal of any portfolio incurring a client initiated significant cash inflow or outflow of \$20 million or greater. The temporary removal of such an account occurs at the beginning of the month in which the significant cash flow occurs and the account re-enters the composite the last day of the month in which the cash flow takes place.

The U.S. Dollar is the currency used to express performance. Returns include the reinvestment of all income. As of January 1, 2019, net of fee performance returns are reduced by deducting actual fees accrued by composite accounts on a monthly basis. Prior to January 1, 2019 net of fee performance was calculated using the highest applicable annual fee of 1.00% which includes management and custodial fees, applied monthly. The annual composite dispersion presented is an asset-weighted standard deviation calculated for the accounts in the composite for the entire year.

The investment management fee schedule for the composite is 1.00% on the first \$10 million and 0.70% on the balance. Actual investment advisory fees incurred by clients may vary. The Small Cap Value composite was created October 31, 2006.

Snow Capital Management L.P. claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Snow Capital Management L.P. has been independently verified for the periods January 1, 1992 through December 31, 2019.

Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS standards. The Small Cap Value composite has been examined for the periods November 1, 2006 through December 31, 2019. The verification and performance examination reports are available upon request.
