

Environmental Policy

Longreach Airport Pty Ltd (LAPL) is committed to developing and operating the airport in an environmentally responsible and ecologically sustainable manner.

To achieve continuous improvement in environmental performance consistent with the principles of ISO14001 standard LAPL will:

- Strive to minimise impacts on the environment including pollution of water, air and soil and protect biodiversity.
- Seek to minimise the generation of waste and greenhouse gas emissions and are committed to reducing the consumption of energy and water.
- Ensure we comply with applicable environmental legal requirements and other voluntary requirements to which LAPL subscribes.
- Aim for continuous improvement in our activities, especially in areas of waste management and resource usage.
- Encourage an environmentally responsible culture amongst LAPL employee's and tenants.
- Lead and educate its customers in minimising waste generation and environmental impact.
- Make this policy publically available.
- Review this policy following legislative or organisational changes, or as a minimum every 3 years.
