Touring skis

Dynafit Seven Summits Youngstar

length 120, 130, 140, 150, 160 cm, sidecut top/middle/bottom from 106-77-91 to 115-81-101 mm

NEWS IN OUR OFFER!!!

The first children's/youth ski from Dynafit! Perfectly tuned ski touring set consisting of the soft skis developed with children in mind and the ST Rotation 7 Binding that is suitable for users from 25kg weight.

Dynafit Speedfit 84 Woman

length 149 cm, sidecut top/middle/bottom 113-82-101,

Ski touring skis for female skiers who have never been ski touring before. It's a ski that can go both on- and off-piste. Stable skis that turn easy, both on icy ground and in powder. It is the lightest model we have available to rent.

Dynafit Tour 88

length 158, 166, 174, 182, 189cm, sidecut top/middle/bottom from 121-86-105 mm to 125-90-109 mm

Tour 88 will suit a person that have tried ski touring before. They are designed for off-piste skiing and ski touring. They are fun to ski with, especially when powder is deep. Easy to turn, stable and lightweight.

Dynafit Radical 88 and Radical 88 Women's

length 151, 158, 166, 174, 182 cm, sidecut top/middle/bottom 118-85-107 mm and 122-89-111 mm

The Radical 88 model is a medium wide allaround ski for classical top tours. A versatile and forgiving, light and playful touring ski with a wooden core from poplar giving a feeling of stability.

Dynafit Beast 98 and Beast 98 Women's

length 163, 170, 177, 184 cm, sidecut top/middle/bottom from 124-96-115 mm to 126-98-117 mm

The Beast 98 skis are designed for more experienced skiers that love speed when heading down steep coloirs or large powder mountains. They are heavier than Tour 88 and therefore more stable on tricky ground.

Dynafit Beast 108

length 173, 181, 188, 194 cm, sidecut top/middle/bottom from 134-106-124 mm to 137-109-127 mm

The Beast 108 suit people who go ski touring on big powder days and need big skis giving them high speed. This model is designed for experienced skiers. They are the heaviest and widest of all ski touring skis we have for rent.

G3 Seekr 100 Women's

length 154, 162 cm, sidecut top/middle/bottom from 132-100-120 mm, 2019 models

Ultralight, wide touring skis designed for female and lighter male riders. Playful skis really fun to ski in all conditions. Great all-mountain gear designed for shorter turns and easy handling on powder. Light skis that will take you far.

Moonlight Eagle Carbon

length 177 cm, sidecut top/middle/bottom from 130-95-120 mm, 2019 models

The Moonlight Eagle skis provide superb float in soft snow and lots of edge contact in firm snow. The Eagle are true all round skis suitable for on- and off-piste skiing. They are our most carve friendly skis perfect for shorter turns. Manufactured in northern Norway.

Ski touring boots

Together with the skis you can rent ski boots Dynafit Neo U, Hoji PX and Seven Summits men and women. **When you rent ski touring package boots are offered with package price 1 NoK.**

All the skis come with Dynafit bindings Dynafit TLT Radical ST Rental or Dynafit ST Rotation 10.

Skins, ski poles and ski crampons are included when you rent the skis and are not offered for rent separately.

Splitboards

Tourin

Jones Solution Splitboard
Women's
length 148 and 152cm
2018 and 2019 models

Board delivers unrivalled backcountry performance in any terrain. The blunt nose, directional rocker profile and inner/outer edge Traction Tech keep you locked in and gliding fast no matter where you roam.

Jones Solution Splitboard
Men's
length 158, 161, 164 cm
and 165cm wide board
2018 and 2019 models

The Solution is a hard charging and playful splitboard that is designed to excel in all snow conditions. It features a blunted, rockered nose and tail that give the board insane float for it's length.

Jones Dream catcher
Splitboard
length 158cm
2019 model

Board delivers unrivalled backcountry performance in any terrain. The blunt nose, directional rocker profile and inner/outer edge Traction Tech keep you locked in and gliding fast no matter where you roam.

Jones Explorer Splitboard
length 156, 159, 162 cm
2019 model

The Explorer is designed for both pow days or park days as a floaty. It easy to butter or stomp and it provides confident stability riding through tech terrain or unexpectedly rough snow conditions. The Explorer has a friendly flex and doesn't skimp on performance features.

K2 Wide Ultra Split
Splitboard
length 165 cm
2018 model

Designed with a premium on weight and smooth turning performance, the Ultra Split Wide is flat between the bindings with a rockered tip and tail to ensure effortless pow float and easy trail breaking capability.

All splitboards come with Karakoram Prime SL or Prime Connect bindings in size S, M or L.

Prime Universal Crampon, Jones Nomad skins and H2 Speedlink poles 135 cm are included in the splitboard rental and are not offered for rent without the board.

Splitboard/Snowboard boots

Tromsø Outdoor offers for rent 3 models of boots:
- men models of K2 Aspect and Ride Lasso Man
- women model Ride Sage

When you rent ski touring package boots are offered with package price 1 NoK.

Accessories

This is do it all headlamp from Moonlight. Everything in one small lightweight powerful headlamp. - waterproof - 20 degree light spread - weight 105gr, - 2000 LM
The light is running at max power around 2 hours and 30 minutes. Charging time is around 3.5 hours.

Avalanche Safety Equipment

All avalanche equipment offered for rent is produced by BCA.

BCA Searcher Tracker T2 avalanche transceivers, 240, 270 and 300mm probes and avalanche shovels.

BCA Float Airbag Backpacks are available in sizes 22L, 32L and 36L. In addition you find with us BC Link radios and snowboard carry attachment.

Chosen articles are available for sale.

In stock we have maps, avalanche probes, searchers, shovels and backpacks; helmets, goggles and ski touring guide books.

We can also fill up your BCA air cartridge for airbag backpacks (service fee is 300 NoK).

Important information

You can book all our services on line at www.tromsooutdoor.no.

Before you book have a look on our [terms and conditions available online](#).

One day of rental = any time up to 24 hours. [Tips on where to go for the topptour](#).

From December 2018 Tromsø Outdoor AS becomes authorised Dynafit Sale Centre. We look forward to continue rental and start also sale of the Dynafit products.

Tromsø Outdoor AS offers for rent several models of top-notch touring skis from Dynafit and K2, together with the splitboards from Jones and K2.

All equipment offered for rent is produced by renowned brands:

Dynafit, Jones, Ride, K2, G3, BCA, Grivel, Cratoni, Singing Rock, Moonlight.

You can book just single articles (eg. just ski boots, or avalanche tracker) or package of products: ski touring package, splitboard package or avalanche package.

Cancellation policy

The following cancellation fees apply:

Cancellations received 60 days or more prior to the date of rental: no charge

31 - 59 days prior to the date of rental: 25% of the total rental price

8 - 30 days prior to the date of rental: 50% of the total rental price

Less than 8 days prior to the date of rental: 100% of the total rental price

For returning rentals after ordered period rental rates for additional days need to be paid.

If you wish to keep the equipment longer check with us if it is still available first, if it will be booked by someone else you must bring the rentals back.

Tromsø Outdoor AS does not offer refund of the rental costs of returning equipment before the initially booked time.

Cancelations resulting from Norwegian national travel restrictions related to Covid-19 can be cancelled until 14 days before arrival with full refund.

Support

If you experience any troubles with using Tromsø Outdoor AS equipment we are available under the phone 24/7 and we are ready to provide you with as good support as possible under the circumstances. Please inform us immediately in case you have any questions about the equipment or you think something is not working as anticipated.

Insurance

Tromsø Outdoor AS does NOT offer an insurance on the rented equipment and for it's users.

Renters are liable for the lose, theft or damage of the equipment and must cover the cost of repairing or replacing it from own travel insurance or pocket. **Tromsø Outdoor suggest you to organize insurance for yourself before you pick up the equipment.**

In case of questions please ask our crew about ours terms and conditions, available at www.tromsooutdoor.no

There are many easily accessible and beautiful places where beginners can ski without any problems, however you should also remember to always carry an avalanche beacon, shovel and probe when travelling in avalanche terrain and know how to use them. Back-country travel requires an acceptance of the risks involved (avalanches are not the only danger) and implies a willingness to take responsibility for educating oneself about these dangers and ways to mitigate them.

Opening hours

Due to Covid pandemic our opening hours are changed and adapted to the current situation. Please visit our website before arrival for the latest updates.

[Details/updated opening hours online](#)
(scroll to the bottom of the page)

If you arrive before or after opening hours, we can at some occasions open the store out of the opening hours. Service fee of NOK 400,- applies.

You can [order service on line](#) together with rentals, or later on, latest 3 days prior to your arrival.
