## TESTIMONIAL FROM A CUSTOMER

I HAVE JUST COMPLETED A TOTAL RENOVATION AT THE GOLD COAST. EVERYTHING LOOKS WONDERFUL BUT THE ABSOLUTE STAND OUT IS MY "SOLID TIMBER BLACK BUTT".

ALL VERY COURTEOUS, KNOWLEDGEABLE AND HELPFUL.

I WOULD HAVE NO HESITATION IN RECOMMENDING THIS COMPANY IN THE FUTURE FOR ANYONE WISHING TO UPDATE THEIR FLOORS.

THANKS AGAIN MASTER TIMBER FLOORING!

MARY (BURLEIGH WATERS)

# TIMBER FLOORING

## SELECT(PREMIUM) GRADE

Providing a floor where the feature present or natural discolouration will not dominate the appearance of the floor. Features that are permitted still include short narrow gum veins, a limited number and size of past borer activity and small knots.

## STANDARD GRADE /MEDIUM FEATURE

Providing a floor that may have significantly more character than a SelectGrade floor. To some degree this will depend on the features present in a particular species. In one species gumveins may naturally be prevalent while in another there may be few gum veins but past borer activity may be moreprevalent. Therefore, this grade can be expected to have greater character than Select Grade, and contain anincreased amount of gum vein, past borer activity, knots and natural discolouration.

## NATURAL GRADE /HIGH FEATURE GRADE

Providing for a floor that contains boards with similar features to Medium Feature -Standard Grade but where the length of features such as gum veins may be longer and past borer activity maybe more frequent. Again depending on the species, features will vary and in some instances boards meeting high-feature grade may only appear moderately featured. It should be note that the difference in appearance between a Select Grade floor and a Medium Feature -Standard Grade can be quite significant whereas the difference in appearance between a Medium Feature -Standard Grade floor and a High Feature Grade floor can be quite small.

# TIMBER TYPE; SOILD

### NORTHERN BOX

Texture fine, even. Grain interlocked. Pores filled with gummy solid deposits. Wood is siliceous, with no distinct odour. Timber doesn't leach.

- Hardness(kN) : 10
- Density(Kg/m3) : 900
- Specific Gravity : 0.9

### WHITE MAHOGANY

White mahogany is a premium Australian hardwood used for structural, interior and exterior applications.

- Hardness(kN) : 8.9-10
- Density(Kg/m3) : 950
- Specific Gravity : 0.8

### YELLOW STRINGYBARK

Yellow stringybark is a hardwood timber found along the south coast of NSW. It is used for flooring, decking, heavy construction and structural applications.

- Hardness(kN) : 6.7-8.6
- Density(Kg/m3) : 885
- Specific Gravity : 0.8

### GREY BOX

Grey box is a highly durable Australian hardwood often used for heavy construction applications and flooring.

- Hardness(kN) : 15
- Density(Kg/m3) : 1105
- Specific Gravity : 0.9

### TEAK

Teak is renowned for its marine applications, including boat building, and a wide variety of decorative uses.

- Hardness(kN) : 4.5
- Density(Kg/m3) : 670
- Specific Gravity : 0.67

### TASMANIAN OAK

Tasmanian oak is a premium Australian hardwood timber encompassing three species that grow in the mountainous areas of TAS, VIC and NSW.

- Hardness(kN) : 5.7-7
- Density(Kg/m3) : 780
- Specific Gravity : 0.78

**AMERICAN WHITE OAK**

The timber is imported from eastern USA and used for a variety of applications, including furniture, flooring and joinery.

- Hardness(kN) : 6
- Density(Kg/m3) : 770
- Specific Gravity : 0.68

**BRUSH BOX**

Brush Box is a large hardwood with a squarish lower trunk that flourishes in the rich soils of the north east coast of Australia between Sydney and Cairns. Brush Box has an even texture with a very tight interlocking grain.

- Hardness(kN) : 7.8-9.1
- Density(Kg/m3) : 890
- Specific Gravity : 0.9

**ROSE GUM**

Rose gum is a fast growing Australian native hardwood with a wide range of applications from general construction to fine furniture making.

- Hardness(kN) : 8
- Density(Kg/m3) : 700
- Specific Gravity : 0.7

**MOUNTAIN ASH**

Mountain ash is a large Australian hardwood that can be used for timber framing, flooring, internal applications and furniture.

- Hardness(kN) : 3.4-4.9
- Density(Kg/m3) : 1050
- Specific Gravity : 0.7

**BALAU**

Native to Malaysia, Indonesia and the Philippines, balau is a dense hardwood used mainly for heavy construction.

- Hardness(kN) : 7
- Density(Kg/m3) : 850
- Specific Gravity : 0.85

**NEWENGLAND BLACKBUTT**

New England blackbutt is a large Australian hardwood from the tablelands of northern New South Wales and southern Queensland used mainly for general construction.

- Hardness(kN) : 9.5
- Density(Kg/m3) : 930
- Specific Gravity : 0.9

**TALLOWWOOD**

Tallowwood is an extremely hard, durable and versatile Australian native hardwood species. Its timber products are suitable for a wide range of applications.

- Hardness(kN) : 10
- Density(Kg/m3) : 900
- Specific Gravity : 0.9

**BLACKBUTT**

Blackbutt is a straight grained timber with a warm nutty hue, which will complement a range of interior designs where a lighter neutral palette is required.

- Hardness(kN) : 9
- Density(Kg/m3) : 900
- Specific Gravity : 0.9

**SPOTTED GUM**

Spotted gum is a premium Australian hardwood that is used widely in structural, exterior and internal applications.

- Hardness(kN) : 11
- Density(Kg/m3) : 950
- Specific Gravity : 0.95

**CROW'S ASH**

Crow's ash is a large hardwood species that is native to northern NSW and parts of Queensland. It is used mainly for flooring, boat building and outdoor furniture.

- Hardness(kN) : 9.2-14
- Density(Kg/m3) : 950
- Specific Gravity : 0.9

**KARRI**

Karri is a slow-growing, durable Australian hardwood that produces an interlocked grain and ranges from creamy to red-brown in colour.

- Hardness(kN) : 9
- Density(Kg/m3) : 900
- Specific Gravity : 0.88

**JARRAH**

Jarrah is an Australian hardwood renowned for its versatility, durability and strength in a wide range of interior and exterior applications.

- Hardness(kN) : 8.5
- Density(Kg/m3) : 820
- Specific Gravity : 0.8

## TIMBER TYPE; PRE-FINISHED

### WHAT IS PREFINISHED SOLID TIMBER?

Pre-finished solid timber floors provides the beauty and qualities of a solid timber floor, without the hassles of sanding & polishing so you can walk on your floor immediately after installation.

Precision milled pre-finished timbers means no sanding, no sealing and no lacquer smells. The double sided coating provides 6 times the stronger finish on top and moisture resistant underneath. Combining this you have a floor that is a dream to install and will look beautiful and wear for years to come.

Pre-finished solid timber has a flexible character. It will expand or contract with changes of humidity.

Each piece of pre-finished solid timber is carefully hand picked, processed with KD technique and special shaping procedure. And there is no stain used on our product, the colour of our entire product is natural.

The processing techniques are crucial for quality of solid timber floor products not which timber or which country it comes from.

Pre-finished solid timber use a specially developed water based oil coating which provide our solid timber with superior surface durability and wear resistance.

## TIMBER DECKING

### WHAT IS DECKING?

A hardwood timber deck provides a way to enhance any home, garden, commercial or retail property.

A hardwood timber deck creates a comfortable, attractive and flexible feature that can be added to any kind of flat, sloping, wet or even water-side site.

Our decking timber products are ideal for applications such as boardwalks, pedestrian and light vehicle bridges, loading docks and grandstands.

### BENEFITS OF TIMBER DECKING?

- ✓ Decking can be used to complement internal flooring and form a natural flow from indoors to outdoors.
- ✓ Blackbutt and Spotted Gum have a natural fire resistance. Their fire retarding properties meet Australian Standard and so can be used in bush-fire prone areas without any treatment.
- ✓ Hardwoods are easy to stain to complement an outdoor color scheme or can be left raw to create a natural, weathered look.

- ✓ A timber deck is built over the natural lie of the land so it will not interfere with drainage.
- ✓ Durable hardwood timber decking is a natural product and can be refinished to its original state with little fuss.

### ADVANTAGES OF ENGINEERED TIMBER

Engineered wood products are versatile and available in a wide variety of thicknesses, sizes, grades, and exposure durability classifications, making the products ideal for use in unlimited construction, industrial and home project application.

Engineered wood panels are easy to work with using ordinary tools and basic skills.

Engineered wood products make more efficient use of wood. They can be made from small pieces of wood, wood that has defects or underutilized species.

## IMPORTED SPECIES

### KEMPAS

Kempas tends to be an orangish-brown, with an overall mahogany-like appearance. Kempas has a medium to coarse open texture. The grain is interlocked and sometimes wavy. The wood can also have streaks of brittle tissue that can be a source of mechanical weakness.

- Hardness(kN) : 7.8
- Density(Kg/m3) : 880
- Specific Gravity : 0.88

### MERBAU

Merbau is a South East Asian rainforest hardwood that is also known as Kwila. It is a durable, dark reddish brown timber that is high in tannin content. Merbau may require repeat applications of Inter-grain Reviva prior to coating. It is commonly used for decking, fences, flooring and panelling.

- Hardness(kN) : 9
- Density(Kg/m3) : 830
- Specific Gravity : 0.83

# VINYL FLOORING

Vinyl flooring comes in many styles and colours. With so many options available, and the chance to have natural stone, wooden floor boards and tile finishes, it's a great way to get beautiful flooring on a budget. Many people find it difficult to spot the difference between vinyl flooring and the real material.

Also, vinyl flooring has little or no maintenance. Installation is relatively straight forward if you follow our guidelines. Once laid, you can expect twenty years of wear from them. Much like timber flooring, vinyl flooring is great for people with allergies. They are easy to clean and there is nowhere for dirt and bacteria to sit. Vinyl flooring has a very safe slip-resistant option, making it very appealing to parents with young children, elderly people.

# HYBRID FLOORING

WATER, SCRATCH AND STAIN RESISTANT.  
LATEST FLOORING INNOVATION  
COMBINING OF BOTH LAMINATE AND VINYL

Hybrid Flooring is 100% waterproof flooring and is the latest flooring innovation, combining the best elements of both laminate and vinyl. Hybrid is made of multiple layers of materials pressed together for an extremely hard wearing floor.  
With the rise of popularity in open plan living, Hybrid Flooring has become a straightforward solution for homes where a carefree lifestyle is a priority.

\* More collections available on our website

# LAMINATE FLOORING

Laminate flooring is made up of layers of composite wood; a backing layer, an inner layer, a design layer and lastly, a top layer to protect it from wear and tear. Extremely durable, you never have to strip and re-polish laminate timber flooring. Laminate timber flooring is less expensive per square metre than solid or engineered timber. When installation costs are factored in, it is cheaper still and far less expensive than solid timber flooring, which has to be sanded and polished after it is laid. Interlocking laminate timber flooring tiles never shrink, warp or crack. No precious natural timber resources are used in manufacturing laminate timber flooring. The quality and price of laminate timber flooring differs, depending the thickness of the core board, whether the core is MDF or HDF, the quality of the top layer and other factors. You may discover that laminate timber flooring is just what you were looking for.

*Extremely durable, No need to re-polish  
Economical, Stylish and beautiful*

# FROM OUR CSUTOMERS

I'd like to commend Phoebe Lee. I am trying to order 100sqm of Australian blue gum. I knew which product I wanted.

My installer Alex Stanton called many businesses for prices, supply etc.

Just terrible service except when he spoke to Phoebe. She got back immediately with all details. I cannot believe initial contact staff do not realise importance of prompt efficient service.

So I just wanted you to know your business expands because of her professionalism and diligence.

**DR.KAY / Ascot**

Thank you so much Master Timber Floors. We absolutely love our new floor. Excellent work and products.

**VIKKI / Woody Point**

Thank you again for the great job, loving our bamboo timber floor.

Your installer Tony certainly knows his trade and completed the job with pride and efficiency.

Have already recommended your business, good to see great customer service.

**KAY / Bald Hills**

Thank you for the great job Master Timber Flooring has completed for us. The end to end process was first class and the guys who put the floor down were extremely professional and courteous.

**JANICE &SAM / Sunnybank**

The Service was amazing and the job was done at a very high standard. I would recommend your company if someone asked me for flooring.

**ROBERT / Redbank**

I've never seen like this high quality flooring. Absolutely I will be with Master timber flooring next time as well

**N.P / Calamvale**

Thank you so much Master Timber Flooring. John (Installer) has done a good job in my property. Benjamin (flooring specialist/director) did supply & install fantastic.

**AMY / Bupengary**

Thank you so much Master Timber Flooring. The installer guys did an amazing job & were very happy with the floor.

**TOULA / Carindale**

We want to send a very big thank you to everyone at Master Timber Flooring for assisting us in completing a wonderful renovation to our school.

- Job details : Sanding & Polishing 120m2

**MERRRIMAC STATE SCHOOL / Merrimac**

We wanted you to know how happy we were with You. You are fast with your work, and left apsolutely no mess for me to have to clean up.

**CHRISTIAN / Ashgrove**

We knew Master Timber to be reliable & efficient. there was no problem at all. All the best.

**WILLIAM / Parkinson**

My family's very pleased with the timber floor that you've installed for us. The quality of the work is great. The guys doing the installation were professional, courteous and explained very clearly what they were going to do, and also how long it was going to take. They also provided suggestions for making our timber skirting look good. Thanks so much for making us feel comfortable throughout the entire process, from sale to installation. Great job!!!

**THAO / Macgregor**

Our new floors look very nice. I'll definitely be recommending Master Timber Floor-ing.

**PETER / High gate Hill**

To me, Master Timber Flooring did a fantastic job. Not only it quoted the same as the lowest of all other quotes, it did not take long to do the installation. Everything – from measurements and quote to instal-lation – was done within a week which was backed by a 5-year warranty on installation and 25 years on the material. It was neat. There was no one in the market who could install within a month. Thank you Master Timber Flooring.

**HOM / Paddington**

We would like to thank Pheobe for her efficiency in hadling our custom. We are delighted with the new floor and the repairs to the kitchen floor and would like to compliment you on your installers. They were extremely polite and did a good job and cleaned up very well when they had finished. So again thank you to all.

**SUSAN & FRED / Manly West**
