

We are recruiting a Junior Creative Artworker who wants to develop their skills across a variety of projects.

We started with a vision. We've stuck to our four key principles: Fresh. Smart. Open. Real. And our strong foundations mean Synergy Vision continues to grow. That's why we're looking for a **Junior Creative Artworker** who has strong working knowledge of the Adobe Creative Suite – especially Illustrator, Photoshop and InDesign – and PowerPoint. You'll have a knack for bringing **Creative flare to technical content** demonstrated by a strong portfolio **with a range of print and digital artwork samples**.

At SV, you'll have the opportunity and support to become the best at what you do.

The ideal candidate will be organised, flexible and detail-orientated, and have a strong desire to learn about and progress within the medical communications sector. If you have good communication skills to ensure planning schedules run smoothly and the ability to collaborate effectively with non-creatives, we'd love to help you develop your career. As a Junior Creative Artworker, you'll be asked to contribute in the following ways:

Knowledge and skills

- Good time management and organisational skills to juggle projects
- An eye for quality, detail and composition
- Good understanding of print and processes
- Great progress-reporting skills at every stage of the design and artwork process
- Methodical approach to archiving images and artwork
- A good understanding of brand and corporate guidelines
- Bonus: interest in video/storyboard art-working or animation
- Support a respectful and professional working environment
