

Azuga Fleet™ for Pest Control

Get better control of your workforce. Deliver better customer service. Increase the level of safety your technicians use when driving, Azuga Fleet is a powerful solution used by pest control companies large and small to improve their operations and their bottom line.

Managers love it.

Azuga Fleet is incredibly easy to use—just plug it in. No installation costs, no downtime. Data pours into the secure management portal, giving instant insight and reporting that’s easy to read and easy to use. Customers say it’s the most user friendly portal they’ve ever used.

Technicians love it.

Azuga Fleet lets you move from “gotcha” to “great job!” Unlike other fleet tracking solutions and safety programs, which are punitive, our unique approach to Driver Rewards gets technicians engaged and motivated to drive safely and win. And when they compete, you win.

Bottom line: you’ll love Azuga!

You’ll manage a safer, less costly and more efficient fleet. No gotchas, low up-front costs, no punishing contracts or termination fees. For one price you get it all: data and reports for control and savings, driver safety scores and rewards, vehicle maintenance and much more.

“We got our fleet up and running on Azuga in a single day, and their team gave great support in configuring the service. I get one simple report in my email, and all of our management staff stays updated on their drivers”

Josh Peabody, Director of Purchasing & Quality, McCauley Services

“Azuga’s is different. It gives us a new way to drive our meetings and coach techs to improve safety”

Kevin Lemasters, President, Enviropest

“With Azuga, installation is quick and inexpensive. Rich data helps make our fleet more efficient. All at half the price of the old black box systems.”

Pete Steinmetz, COO, Turner Pest Control

“We’ve pulled fuel costs down by 25% by controlling excessive idling. We’re controlling hard stops and rapid starts, which makes us much safer.”

Brianna Hatch, VP Operations, Hired Gun Weed and Pest Control

Features and Capabilities

Fleet Operations

Managing fleet and field operations takes a leap forward with Azuga Fleet.

- Real-time Vehicle Location/Status
- Fleet Performance Dashboard
- Fuel Usage and Fuel Card Integration*

Features and Capabilities for Larger Fleets

For customers with large fleets, Azuga offers features and capabilities that give management the data and control needed to manage fleet and service operations across a large operation and multiple locations.

- Large account features: hierarchical groupings (location, groups, vehicle types); role-based permissions; and visual clusters on the live map for concentrations of vehicles in locations
- A rich set APIs for integration, pre-built integrations with fuel card and fleet management partners, and an engineering team to assist with integration and customization.
- A Customer Success team acts as an extension of your fleet operations, getting involved from day one to ensure a successful deployment and ongoing satisfaction. This team conducts quarterly business reviews to help you identify areas of improvement.
- Azuga's Data Science team is available to help analyze the immense data set captured through Azuga Fleet to generate new insights into safety, productivity, utilization, routing, and maintenance. Industry and time comparisons yield significant improvements.
