

# STORM XR

Three dimensional, non-woven silt fence that doesn't blind.

## Product Information

---

### Product Description

Test Storm XR against any other silt fence on the market--we dare you. Storm XR was designed to be one of a kind yet affordable, and to eliminate every single issue faced with standard silt fence. No blinding, no ripping, no UV damage, no daily replacing.

Outer Material	15 Denier Nonwoven Polypropylene
Color	Dark Gray
Configuration	Pre-Staked Fabric
Stakes Placed	Every 4 Feet
Field Functional Longevity	~2 Years

### Features

- Designed for strength and to allow water seepage.
- No metal backing is needed for Storm XR.
- State of the art retensioning string can be wrapped around stakes to fix a saggy fence.
- Rapid installation with this pre-staked solution.
- 15 denier polypropylene material is ultra thick and ultra strong, resulting in a product that wont tear.
- This textile is also extremely porous, allowing water seepage & making blinding nearly impossible.
- Little to no repairs needed across duration of use due to strength of product.
- Easy removal. Just pull out of the ground using a track hoe.
- 24 inches above grade
- 4 individual patents filed due to the "state of the art" nature of this product.
