

LAB MONITORING SYSTEM

IoT Gateway Installation

A customer said it best - "Installation is so easy, a raccoon could do it!"

Mount the gateway

1) attach the antennas, 2) connect to power 3) place on a magnetic surface

Install the sensor

specific instructions provided based on equipment + sensor combo

Enable remote monitoring

make sure your wifi meets requirements, then email us and we'll do the rest

Request managed installation

in many cases, we can do the installation for you for a low fee
