Social Distancing

Guidance, education and information are key to ensuring the safety of all. The next two pages contain a range of informative posters and signs.

Self Standing Signs

These double sided, free standing signs are ideal to attract staff and customers' attention. Yellow warning signs are recognised throughout the UK to highlight potential danger. They are much more likely to be adhered to by customers and staff. Self printed safety messages which are stuck to doors, windows etc are unprofessional, messy and unlikely to be taken seriously. These self standing signs help remind the public of their personal responsibilities in terms of social distancing, considered vital to ensuring the safety of others.

PVC Stencils

Simply spray paint over the stencil then peel away to reveal your message.

Spray Paint

Using this durable resin paint is an economical and easy solution for applying repeated social distancing markers on external pavements to aid safe queueing.

A long lasting synthetic resin paint in a aerosol can. This spray paint adheres to most surfaces such as concrete, asphalt, tarmac, metal and tiles.

Simply shake the can and apply. Environmentally friendly.

Hand Held Applicator

This hand held applicator has been specially designed for comfortable use. Ideal for use with stencil sets, it makes line and floor marking easy.
