Are you losing footfall because of COVID-19?

This might be the reason why...
Research has revealed that 80% of shoppers in the UK feel safer in shops with clear, professional COVID-19 signage.

The study by digital printing solutions firm Roland DG reveals that 78% are more likely to shop in stores with clear instructions on social distancing measures.

The findings also indicate that brands risk reputational damage from inadequate COVID-19 signage, with UK shoppers saying the number one emotional impact of poor signage is the feeling businesses are not taking their safety seriously (40%).

The stores with the most unclear signage are clothes shops (21%), followed by supermarkets / grocery stores (19%), and restaurants and bars (16%).
