

# Terramera Neem Cake

## Pure Cold Pressed Neem Cake

### Directions for Use

Garden Beds: Apply 4 to 5 pounds of Plasma Neem Cake for every 100 sq. ft. of soil.

Trees: Dose into the root zone, normally 2 feet away from the trunk. Use 1 pound per inch of tree trunk per application per tree. Repeat dosage every three to four months.

Potted plants: 1/2 to 1 ounce per pot. Repeat dosage every two to three months.

**Keep away from direct sunlight. Store in cool, dark, dry place.**
