

Come meet us at RSNA 2019!

We are thrilled to be presenting 4 abstracts:

Retrospective Detection of Breast Malignancies with Deep Learning in Clinically Negative, Prior Screening Mammograms
RC315-06: Tuesday / 9:25am / Arie Crown Theater

Improved Machine Learning-Based Evaluation of Digital Breast Tomosynthesis Screening Mammography through Customized Synthetic 2D Image Creation
RC315-10: Tuesday / 10:45am / Arie Crown Theater

Using Generative Adversarial Networks (GANs) to Synthesize and Remove Lesions in X-Ray Mammograms Improves AI-Based Cancer Detection
BR241-SD-WEA3: Wednesday / 12:45pm

Machine Learning Model Generalizes Across Manufacturers and Clinical Sites
BR250-SD-THB3: Wednesday / 12:45pm
