

AUVA CREATIVE

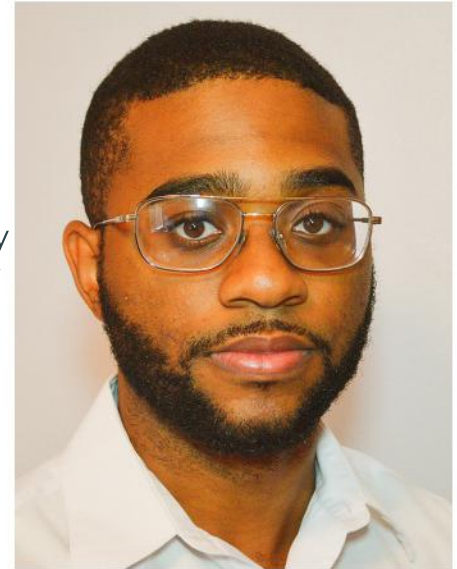

Design Portfolio & Catalog

Artist Overview

My aim is to create all the tools needed to create a professional looking and functioning organization. By offering graphics and logo services I can help any company create a professional business look when it comes to promoting and marketing their business. I also provide business planning and research services to start-up companies and aspiring businesses. I conduct thorough market research and analytics to convey all market and business related information for starting a business. I create detailed business plans by working with clients to gain all possible information from the client and tying it in with our extensive research of the said industry in order to create a personal and extensive business plan for your company.
