

Date: Friday 13th March 2020

Action Plan

Eco-Schools Topic:
Learn more about protecting marine life.

Aim:
For children to know that animals in our sea are in danger.
For children to learn how to protect those sea animals.

Action(s):
Lessons and assemblies to highlight the current issues faced by marine life.
English – write a newspaper report about the damage plastics are doing to marine life.
Science – construct a marine food chain identifying producers, predators and prey.
Design and Technology – create marine animal sculptures out of single-use plastics.
Create a display in school to highlight this.

How long will it take?
Term 1

Who is responsible?
Eco-warriors
Class teachers

How we will monitor progress:
Pupil outcomes
Pupil Voice – ask questions, find out what they have learned.
Evaluation:

Eco-Schools Topic:
Recycling

Aim:
Understand the importance of recycling and reusing.
Understand the impact of not recycling and reusing.
Children to use other things than single use plastic.

Action(s):
Set up recycling bins at school.
Take a trip to the Leeds Recycling and Energy Recovery Centre and learn more about the topic.

How long will it take?
Term 2

Who is responsible?
Eco Warriors
Class teachers
Mrs Dunn & Mr Sandbridge

How we will monitor progress:
Pupil voice
Check whether the recycling bins are being used.
Examples of students reusing materials
Evaluation:

Eco-Schools Topic:
Saving energy and water

Aim:
Children and the community to understand the importance of saving energy and water.
To reduce the amount of wasted energy and water in school and the community.

Action(s):
Learn about the impact of wasting energy through lessons.
English – write an informational text about saving energy at home and in school.
Maths – measure and record the temperature in class regularly and use this data to create a graph or chart (Step 6).
Take part in Earth Hour.
Poster competition to remind about saving energy and water.
