mitatrim

the 3-side trimmer
with 18.5" touch screen display

Description

The mitatrim is the machine for the automated trimming of perfect-bound products or layflat book blocks. Unlike a three-knife-trimmer the mitatrim is equipped with only one knife. A gripper system takes the product to the respective cutting position.

The hydraulic cut allows to adapt the time of the knife being in the lower dead end according to the material. The sturdy cutting unit provides a precise cut and simultaneously a gentle treatment of the material. Within a wide pressure range the clamping pressure can be adjusted infinitely to perfectly match the cutting material. To increase the performance several products can be stacked on top of each other and cut at the same time. The cutting waste bin is accessible from the outside.

The machine is operated via an ergonomically positioned 18.5" touch screen display. Recurrent cutting sequences can be stored and adapted at any time. The set up time is reduced to nearly "zero".

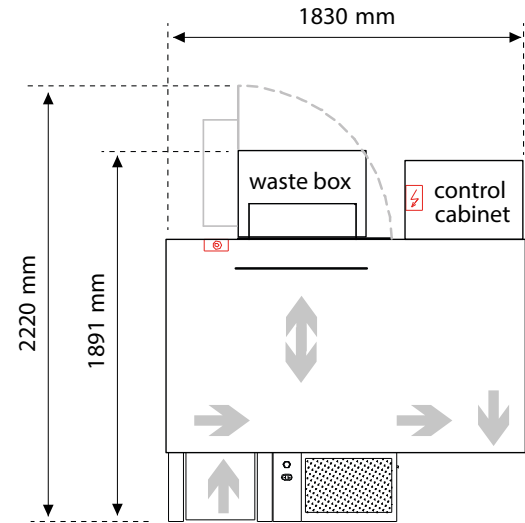

1. Book block feeder
2. Operating panel

mitat

Special features

- ▶ Outstanding cutting accuracy and product quality
- ▶ Format size variable from product to product - no conversion at all needed
- ▶ Large format range
- ▶ Accessibility and panoramic view
- ▶ 18,5" Touch-Screen: clearly arranged and very easy to operate
- ▶ Programming in less than 1 minute thanks to menu-guided input
- ▶ Multiple setting options to optimize the production

Technical specifications

mitatrim

Performance	Single block:	220 books/h
	Multiple block:	600 books/h
Block size untrimmed (Width x height x thickness)	min. 107 x 152 mm x 2 mm max. 305 x 330 mm x 51 mm	
Book block size trimmed	min. 105 x 148 mm	max. 303 x 326 mm
Heat cut	min. 2 mm	max. 91 mm
Front cut	min. 2 mm	max. 200 mm
Foot cut	min. 2 mm	max. 91 mm
Clamp pressure	min. 200 daN	max. 600 daN
Electrics	1.8 kW, 400 V, 3 PNE, 50 Hz	
Air consumption	380 NI/min. (6 or 8 bar)	
Floor space	1,83 m x 2,22 m x H 1,58 m	
Weight	1'230 kg
