

MEAD & HUNT IMPROVES CASH FLOW WITH ELEVIA SOFTWARE SOLUTIONS

Who: Leading consulting services in architecture, engineering, and planning. www.meadhunt.com

Need: Improved invoicing capabilities and processes.

Solution: Electronic Invoicing and Payables Approval & Tracking from EleVia Software with integration to Deltek Vision

Benefit: Improved Project Manager efficiency enabling more billable time. Improved cash flow and DSO by 5 days.

For over a century, Mead & Hunt has built a reputation as an engineering and architecture firm powered by innovative thinkers and steadfast experts. Mead & Hunt provides consulting services in architecture, engineering and planning from offices across America.

To deliver these services, the company leverages the latest in technology and efficient processes so their financial and project teams have the tools they need to deliver for their clients.

When Mead & Hunt needed to improve their invoicing processes, they turned to EleVia and the Deltek Vision integrated solutions.

“The integration to Vision was key, as it provides easy project look up and a one-stop shop for the Project Managers for payables and invoicing.”

INVOICING AND PAYABLES IMPROVEMENT

“We were looking to have our invoices out faster and approval timeline improved to continue to move invoices through the process to the appropriate people,” stated Dixie Lyght, Mead & Hunt Vision System Administrator. “And the same improvements were needed with our payables as well.”

The team evaluated the EleVia Electronic Invoicing and Payables solutions and determined that the features, project reports and Vision integration provided exactly what the company needed to deliver an improved invoice management process.

“EleVia worked with us and our billing team on the deployment which was a very seamless process,” continued Lyght. “For three months we did a test group including business managers. The support from the EleVia Team has been excellent during implementation and the help desk has been awesome post install.”

“The integration to Vision was key, as it provides easy project look up and a one-stop shop for the Project Managers for payables and invoicing,” said Lyght. “That helps the PMs save time by not having to jump from tool to tool which ultimately enables more billable time.”

CASH FLOW IMPROVEMENTS

The bottom line - the improvements made by implementing EleVia’s solutions have helped the company improve their cash flow and days sales outstanding by 5 days.

“The efficiency of the EleVia modules has enabled a 5-day improvement in our DSO,” said Lyght. “The ability to automate the invoice approval process has had a huge impact on our business. Our leadership believes that these solutions have been good investments for our business.”

“The efficiency of the EleVia modules has enabled a 5-day improvement in our DSO.”
