

EleVia Payables Approval & Tracking for Deltek Vision®

STREAMLINE THE REVIEW PROCESS AND REDUCE VENDOR OVERPAYMENT

Now there's a way to automate the vendor invoice review process. EleVia Payables Approval & Tracking streamlines the process to save everyone time. It also makes it easy to track invoices against contracts — so you avoid overpaying vendors and subcontractors.

ENHANCE YOUR EXISTING PROCESS

You don't have to change your process to improve productivity. Instead, we configure EleVia Payables Approval & Tracking to match your process — so it's intuitive and easy for your staff to use. For example, we predefine all the data your reviewers need to approve invoices. We also assign specific reviewers for each invoice based on your approval matrix.

SAVE TIME TO IMPROVE PRODUCTIVITY

As soon as Accounting loads a vendor invoice into the system, reviewers are notified via email that they can mark-up and approve the invoices online — anywhere, anytime. All activity happens in one application — eliminating the delay of exchanging paper documents.

ELIMINATE DUPLICATE DATA ENTRY

You can choose to have the system generate an A/P voucher for all approved invoices, eliminating duplicate data entry. And because the software integrates seamlessly with Deltek Vision®, all your payables data automatically merges with your Vision Accounting module.

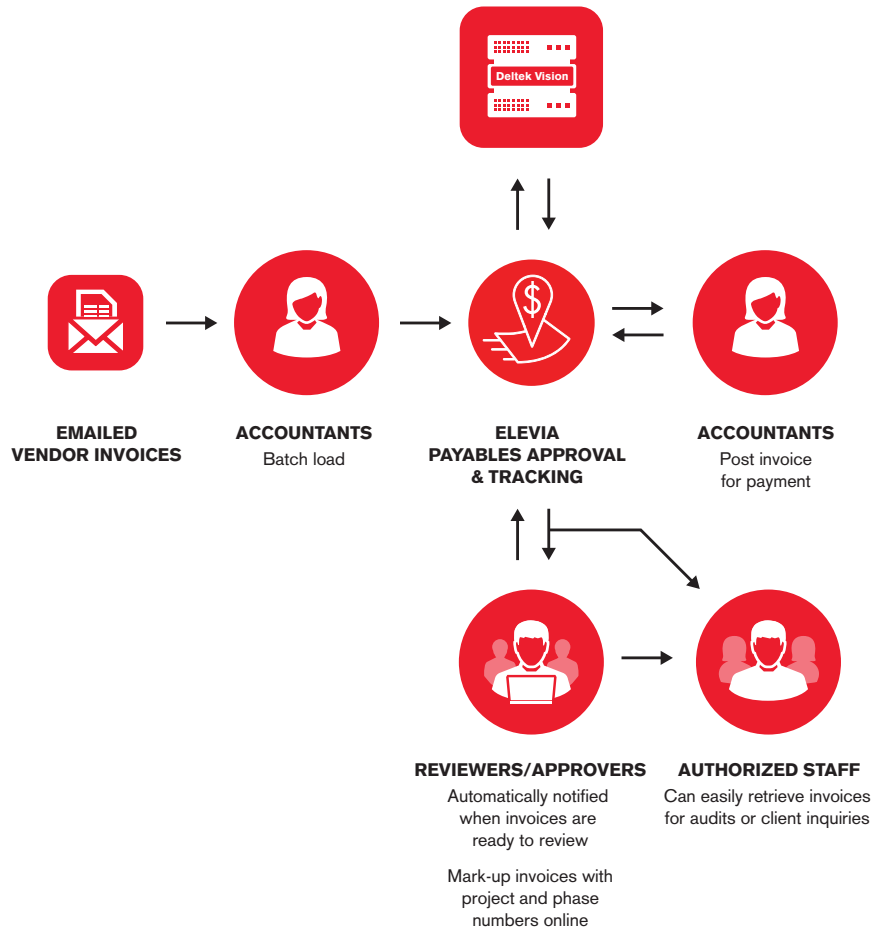

COMPARE CONTRACTS FOR GREATER ACCOUNTABILITY

Your reviewers can display the original contract along with the invoice to compare actual vs. estimated costs. This easy-to-use cost-tracking functionality helps you eliminate vendor overpayment and safeguard against fraudulent billing schemes.

GET MORE VALUE FROM YOUR DELTEK VISION INVESTMENT

EleVia Payables Approval & Tracking helps you extend the power of Deltek Vision. We designed it specifically as a Vision add-on product, so it integrates seamlessly and is intuitive for users. That means you can start leveraging the added functionality right away — for greater efficiency and financial visibility.

HOW ELEVIA PAYABLES APPROVAL & TRACKING WORKS

About EleVia Software

We're a Central Consulting Group company that develops, delivers and supports software to extend the value of the Deltek Vision ERP system for architecture, engineering and professional service firms.
