

THRIVE FAMILY
D E N T A L

We are now open! Here are our

SANITATION STANDARDS

Thrive Family Dental is excited to announce that our office is now open for all treatments and procedures!

As shelter in place regulations begin to lift across the country and we re-enter a post-COVID-19 world, our patients' and staff members' health and safety continue to be top of mind. Our practice has always adhered to infection prevention protocols set by OSHA, the ADA, and the CDC and will continue to do so with extra precautions.

ABOUT OUR SANITATION STANDARDS:

PROTECTIVE EQUIPMENT

- Using gloves, masks, and eyewear while treating patients
- Removing personal protective equipment before leaving the work area
- Safely disposing of used gloves and using new ones for each patient

CLEANING & DISINFECTING

- Establishing policies and procedures for routine cleaning and disinfection of surfaces
- Cleaning and disinfecting surfaces that are not barrier-protected
- Using EPA-registered disinfectants or detergents that are suitable for health care settings

STERILE INSTRUMENTS

- Disinfecting and sterilizing equipment and using monitors to ensure effectiveness
- Wearing appropriate PPE when handling and reprocessing equipment
- Maintaining sterilization records in accordance with state and local regulations

REGULAR HANDWASHING

- Before and after treating a patient
- Before putting on gloves and immediately after removing them
- After touching any potentially contaminated surfaces or equipment

6 FT.

SOCIAL DISTANCING

In addition to adhering to these standards, we will also take measures to ensure social distancing regulations can be respected in our practice so that all patients feel comfortable receiving care.

If you have any questions about our sanitation processes, please feel free to contact our office for more information. We're so happy to be open again and can't wait to see you.
