

# Super Summer Reading

Did you know animals can have superpowers? Whether they jump, swim, run, or fly animals can do amazing things. This summer your assignment is to find out more about some animals and their superpowers, by logging in to THA's new digital e-book library. There you will search for Animal Superpowers, then chose a book from this series to read. While you are reading you will need to do some research, that means writing down facts about your animal and its superpowers. Finally, create a Super Animal Poster to show what you learned.

Your poster should include:

1. Your name
2. The name of your animal
3. A picture of your animal dressed as a super hero
4. At least 3 facts about your animal that you learned from your summer reading book

This project will count as a grade.
