End-to-End Solution

A complete business continuity management

Veoci is the leader in collaboration, continuity, and response software solutions, bringing all the pieces of your program together to create one of the first integrated, truly end-to-end BCM programs.
Bring Everything Together

With Veoci, there are no gaps in your business continuity management program. Build business continuity plans, exercise plans, and create work around procedures all on the same system. When you can plan, respond, and review all on one system, your organization is ready for incidents.

- Integrate BIA and real or test scenarios to determine impact to key functions
- Revision control and archiving of BCPs
- Launch plans faster with one-click activation
- Automatic escalation designed to mitigate impacts
Industry Leading Support

Our top priority is supporting our customers with world-class service. We have the talent and resources to help you create solutions that will make a true difference. Your success is an integral part of our company, and is our prime motivator - it is through you that we achieve our mission of saving time, money, and lives.

“If we have a question on a capability, the support team is super responsive.”

Veoci Features

WORKFLOW

Introduce automation to your BCM program. Map all of your organization’s relationships and dependencies, and integrate BIAs and RAs into plans to create actionable BCPs.

DASHBOARD

Build custom dashboards to facilitate any function in your business continuity management program. Provide total visibility to leadership. Have complete situational awareness during an activation and track the progress of tasks in real-time.

AUTO-NOTIFICATION

Get your message out to your team. Use email, SMS, phone calls, and teleconferences to ensure everyone sees the latest information. Start coordinating between teams and departments immediately with two-way notifications and check-ins.

GEO-FENCING

Track assets and personnel at all of your organization’s locations, and build situational awareness by designating areas with overlays, and filter out noise by geo-fencing affected coordinates.
Veoci’s industrial grade encryption and security practices makes sure your data is safe and secure.

Tie in your monitoring systems through key integrations to trigger a response when escalated.

Veoci maintains 99.997% uptime. Even if your network is down or compromised, your team will have Veoci to continue the response.
USER FRIENDLY SOFTWARE
An intuitive and modern interface means your teams will be up and running in no time.

RAPID IMPLEMENTATION
Veoci’s No-Code foundation enables you to rapidly develop solutions that scale quickly to a business ready level.

AGILE SOFTWARE DEVELOPMENT
New features are deployed every two weeks, ensuring the best new customer-driven enhancements.
The leader in collaboration, continuity, and response software solutions.
