Release Date:  
January 27, 2023

The Broward County Convention Center (BCCC) unveils its *Catch The Wave* program available to all Attendees that park at the BCCC garage. The *Catch the Wave* program is a complimentary shuttle service that will pick up Attendees from their vehicle and drop them off at the Skywalk Bridge entrance located on the 2<sup>nd</sup> Floor of the BCCC garage.

The BCCC garage is undergoing renovations, and the Northeastern elevator will be temporarily inaccessible for all guests. Guests are encouraged to use the stairs, but if an Attendee would like assistance, they are encouraged to use the venue's complimentary shuttle service – *Catch The Wave*.

*Catch The Wave* signage will be displayed throughout the parking garage informing Attendees about the electronic shuttle service. Signage will direct Attendees to use the service by either flagging down the *Catch The Wave* throughout the garage or waiting at one of the designated waiting areas at the elevator banks on each floor or outside of the Skywalk Bridge.

The shuttle service will move Attendees on floors 3 – 6 to the southeast elevator where Attendees can take the elevator to the 2<sup>nd</sup> floor to be transported to the Skywalk Bridge.

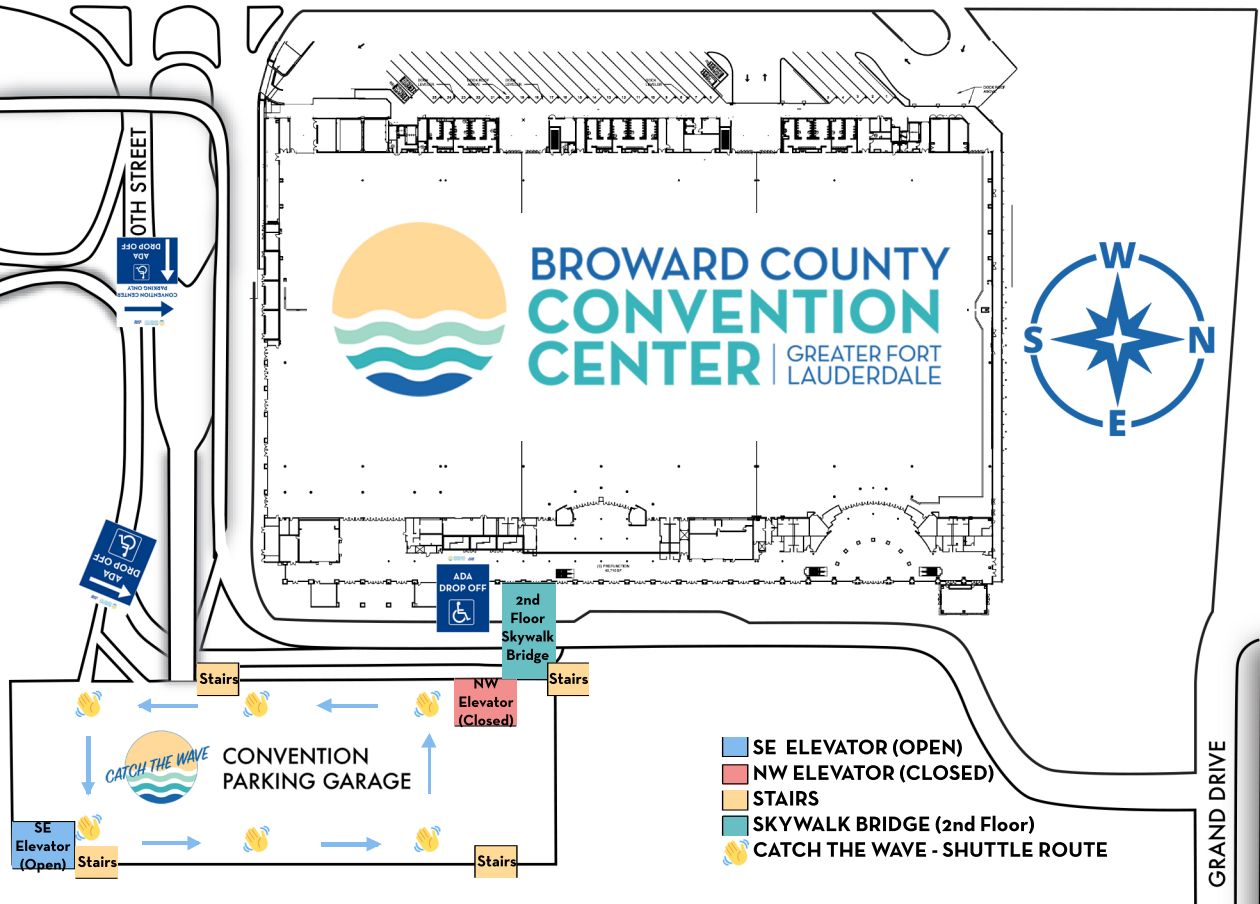

The Catch the Wave initiative has 12 electric shuttle carts that can accommodate up to five guests at a time. The complimentary service will operate around the clock during events and can be requested beyond the event hours by calling (954) 765.5931. There is also an ADA accessible vehicle to transport those needing that specific service.
