<p><i>Recommendations.</i> We do not make recommendations of account types, securities or investment strategies</p>	<p><i>Recommendations.</i> Using online tools, we assess the client’s financial circumstances. Based on the results of this assessment, we recommend a portfolio with a target asset allocation that we believe is appropriate for the client’s financial circumstances. Clients may elect to receive discretionary portfolio management services, offered through a wrap-fee program. We do not offer comprehensive financial planning.</p>
<p><i>Monitoring.</i> We will make available your account statements on our mobile application. We do not monitor or manage accounts</p>	<p><i>Monitoring.</i> If a client elects our discretionary portfolio management services, we are responsible for ongoing management of the client’s portfolio, including monitoring investment performance, rebalancing to target allocations, and making adjustments to the portfolio as we deem necessary. We periodically review the investment options used in our portfolios and may replace them or adjust allocations as we deem necessary to maintain the asset allocation in the portfolio.</p>

<p>Item 3 – Fees, Costs, Conflicts, and Standard of Conduct</p>	
<p><i>What fees will I pay?</i></p>	
<p><i>Principal Fees and Costs.</i> You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying</p>	<p><i>Principal Fees and Costs.</i> The fee for the wrap fee program is 0.75% annually, paid on a monthly basis in arrears. The fee is calculated on the daily balance, which is multiplied by 0.75%, then divided by the number of days in the year.</p>
<p><i>Transaction-Based Fees.</i> We charge fees based on the specific transaction and not the value of your account. We do not charge commissions on trades if the price of the stock is \$5 or above. If the price of the stock is under \$5, we charge \$0.2 per share.</p>	<p><i>Wrap Fee Programs.</i> Asset-based fees associated with a wrap fee program will include most transaction costs and fees to a broker-dealer that has custody of these assets, and therefore may be higher than a typical asset-based advisory fee for similar services.</p>
<p><i>Other Fees and Costs.</i> We charge account maintenance fees for Passfolio Pro which gives you access to our dividend reinvestment program, margin trading, and stop orders. The annual subscription costs \$50 per year and is billed annually, while the monthly subscription costs \$5 per month and is billed monthly. We also charge margin interest, calculated as a percentage on funds you borrow to purchase securities in a margin account. We do not charge any additional fees, such as custodial fees and account inactivity fees. We charge fees associated with specific activity in your account.</p>	<p><i>Other Fees and Costs.</i> In addition to our advisory fees, you may incur other fees and costs, such as custodian fees, account maintenance fees, fees related to ETFs, or other administrative fees. In addition, the broker charges a fee of \$0.02 per share for securities priced less than \$5. Please refer to our Item 4 of our Wrap Fee Brochure for details on additional fees.</p>

<p>Conversation Starter. Ask your financial professional:</p> <ul style="list-style-type: none"> • <i>Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?</i> 	
<p><i>What are your legal obligations to me when providing recommendations as my broker dealer or when acting as my investment adviser? How else does your firm make money and what conflicts of interest do you have?</i></p>	
<p><i>Standard of Conduct.</i> We do not provide recommendations as your broker-dealer. The way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the services we provide you. Here are some examples to help you understand what this means.</p>	<p><i>Standard of Conduct. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the investment advice we provide you. Here are some examples to help you understand what this means.</p>
<p><i>Conflicts of Interest.</i> The more transactions in securities priced under \$5 in your account, the more fees we charge you. However, those fees are charged by our clearing firms and are passed through to you, without us making any profits. We therefore do not have an incentive to encourage you to engage in those transactions.</p>	<p><i>Conflicts of Interest.</i> An asset-based fee presents a conflict of interest because the more assets you have in your advisory account, the more you will pay in fees; therefore, we may have an incentive to encourage you to increase the assets in your account. We are under common ownership with the broker used in the wrap fee program. Typically, this would present a potential conflict of interest; however, we mitigate this conflict by including most transaction costs in our wrap fee.</p>
