

BOOST Referral

Get featured on all major search platforms and boost the number of fans buying tickets directly from your website's ticketing pages.

- ✓ Google, Facebook, Bing and IMDB
- ✓ Presence alongside 3rd Party Vendors
- ✓ +20% Increase in Direct Ticket Sales

To learn more visit webediamoviespro.com or contact one of our sellers at sales@webedia.us

BOOST Referral

Some of the key aspects include:

Unparalleled exposure

We automatically collect links to all your ticketing pages across all your locations and make sure we pull the most relevant location and showtime across all major search platforms.

Powerful Analytics

We also automatically add a little invisible tag to your links that allows you to track all of your referral ticket sales and measure how well you're selling.

Over the years, platforms like Google have developed unparalleled movie discovery experiences that have become part of our every day lives. Alongside a good website and reliable ticketing, presence on major search platforms can be a significant driver for growth.

Present on all platforms

We guarantee exposure on all major search platforms and work to make the transition of a customer from search to your website as seamless as possible:

Google **facebook** **IMDb** **amazon**

Significant Sales Increase

We've seen time and time again a surge of up to 20% of ticket sales coming in through referral. Referral is an avenue to seamless growth and significant ROI!
