

SaaS Ticketing

We help you drive revenue through our SaaS ticketing platform. A simple product fully integrated into your point of sale system and designed to improve your customer's ticket purchasing experience.

- ✓ Intuitive Mobile Payments
- ✓ All major forms of payment
- ✓ Accelerated Mobile Pages
- ✓ Perfect when paired with referral

Just last year, ticket purchases directly from the theater's website went up by 28%. To learn more about why SaaS Ticketing matters check out our White Paper at webediamoviespro.com/whitepaper or contact one of our sellers at sales@boxoffice.com.

SaaS Ticketing

Some of the key aspects include:

Our platform, your brand

We've developed a world-class ticketing platform that can be easily integrated onto your website and made look as if it were part of the website. But when your customers buy a ticket, they do so in our secure and optimized platform for maximum security and reliability.

Integrated with your POS

We not only make it custom to your brand but we also integrate with your point of sales of choice, be it Vista, RTS or NCR. All this while you remain the merchant of record.

Stay Competitive

In our relentless pursuit to build the most up-to-date platform you'll get first hand access to all latest technologies and innovations:

- ✓ Mobile Accelerated Pages / AMP
- ✓ Web Actions
- ✓ Latest Payment Technologies
- ✓ Seat First Booking

Includes our Referral Program

We're the source of showtimes data for all major platforms. By being a SaaS Ticketing customer you'll get all your showtimes automatically listed in all search results with direct links to your ticketing pages.

Secure Payments

We can integrate a wide variety of payment systems – from gift cards, split payment, loyalty integration, hosted payment, and even Google Pay.
