## PROFESSIONAL PROFILE

Shade is a Digital Product Designer within Accenture Interactive and leads UX efforts that transform and revitalize digital experiences for some of the world's most successful companies. She has accumulated 4+ years of experience crafting beautiful and engaging products across web, print, and mobile app mediums. With a balance of creative and technical skills, Shade utilizes a user-centered approach to design intuitive experiences at the intersection of user needs and business goals.

## EXPERIENCE

### CARGILL

UX Researcher, Minneapolis | Wichita | Bangalore, India

- Executed 30+ domestic and international Research Workshops to better understand the global employee experiences with internal Finance systems.
- Synthesized research findings into 7 cross-functional end-to-end Journey Maps.

### HALLIBURTON

Interaction Designer, Houston

- Redesigned client Data Management System alongside completion of stakeholder interviews, wireframes, and process flows.
- Managed completion of tasks by offshore Visual Designer and facilitated deliverable status and handoff through JIRA.

### SPRINT

User Experience Lead, Kansas City

- Led completion of all Interaction & Visual Design assets including Site Maps, User Flows, Wireframes, and final Visual Comps.
- Utilized Axure RP, Sketch, and InVision to structure responsive wireframes, design visual comps/symbols, and share design assets with the client.
- Facilitated client-facing design reviews to ensure alignment in design direction.

### BOYS & GIRLS CLUB

UX Designer & Analyst, Atlanta

- Facilitated workshops to gather requirements from middle & high school teens.
- Directed 20+ interviews and focus groups with senior management to define, ideate, and validate functional requirements.
- Compiled a matrix of 100+ Functional/Technical Requirements, 100+ User Stories, and 150+ acceptance criteria for custom Learning Management System.

### WHOLE FOODS MARKET

Interaction Designer & Product Analyst, Austin

- Collaborated with stakeholders to elicit, analyze and document Accessibility Requirements that met A, AA, & AAA levels of WCAG 2.0.
- Curated 60+ Accessibility User Stories to better convey the required functionality and necessity of accessibility guidelines.
- Owned the completion of User Flows for 40+ Web Functional Areas.

### WAL-MART

Associate Experience Researcher, Raleigh | Charlotte | Winston-Salem

- Gathered qualitative Store Associate info by conducting 41 interviews and quantitative user journey data through capturing over 13,000 field observations.
- Synthesized research data into storyboards and personas to convey findings.
