

HOW TO ACTIVATE

Once your decoder has been installed and completed scanning you will need to activate it, please follow these steps:

1 Press the 'HELP' button on your Openview remote control to display the help screen.

2 Press the 'HELP' button on your Openview remote control to display the help screen.

3 Press 'EXIT' on your remote control to return to channel 100.

4 Dial the number on the bottom right-hand corner of your screen using a cell phone and follow the prompts. Use your STB number to complete your decoder activation.

5 Your decoder may reboot and update its software during the activation. Please allow a few minutes for this.

6 Once your decoder has been activated, you can use the 'P+' and 'P-' or 'P↑' and 'P↓' buttons on your remote control to change channels.

► Please do not attempt to activate your decoder if you have already attempted to activate it before. It may take up to an hour to view your Openview channels once the decoder has been activated.
