

Engineering
with Precision,
Pace & Passion.

Who We Are

It began with a simple vision – to become the best engineering, design and consulting firm in our chosen business segments as measured by our clients, our employees and the communities we serve.

An ambition to deliver completely integrated solutions, uniquely personalized attention and unparalleled client service with every assignment. A promise to perform for every client need – no matter how large or small – with the same dedication to precision, pace and passion. And a belief that being a part of the communities where our clients and employees live and work deserves as much emphasis as the professional services we provide. Doing what's right. Making a difference.

We are the WT Group. One company and one, unified vision delivering the premier services of experienced, highly skilled engineering, design and consulting teams

serving customers in all 50 states. We solve challenges with the bench strength of the best integrated teams taking a unified approach working towards a common goal. We measure success in how fully each of our employees is engaged and collaborating in unison on behalf of every client. And we never, ever settle for "good enough," because every client deserves nothing less than our best. We exceed expectations because it's the only way we know how to do business.

These are the values that drive the WT Group. Who we are. What we stand for. Precision, pace and passion in everything we do. Because that is what you expect, and that is what you deserve.

Our History

During 50 years of client service and expanding capabilities, the WT Group grew from humble, entrepreneurial beginnings in a Hoffman Estates, Illinois garage to a 25,000 square-foot headquarters overseeing 13 distinct engineering, design and consulting teams.

1971

W-T Engineering founded by Donald R. Triphahn and William White in Triphahn's Hoffman Estates home

1986

W-T Engineering moves to a new headquarters in Schaumburg, Illinois

1998

W-T Engineering expands, establishing a presence in key markets across the United States

2007

W-T Engineering returns to its roots, moving into a new state-of-the-art headquarters in Hoffman Estates

2017

WT Group

W-T Engineering becomes the WT Group, offering clients market-leading capabilities for a wide range of needs

2021

WT Group celebrates its 50th Anniversary

COMMITMENT TO THE COMMUNITY

Helping to build a community is more than simply providing market-leading design and engineering services. It also means connecting with organizations working to make a difference every day.

The WT Group supports local child advocacy agencies as well as local conservation and recreational programs. We established the WT Foundation which funds scholarships for high school students pursuing careers in science, technology, engineering and mathematics.
