

Roadside Services and Solutions product supply manual

Our service is your solution

Roadside Services and Solutions is a leading manufacturer and supplier of traffic and safety signs as well as traffic control products. We are a wholly Australian-owned company. We also specialise in line-marking, supply and installation of energy absorbing bollards and guardrails and civil construction works. While most people take road and safety signs for granted, each state authority has thorough and highly specific requirements relating to manufacture, installation and placement of signs, all aimed at keeping all users informed and safe.

Roadside Services and Solutions takes its responsibility to providing quality products and services seriously and is backed by the 3M Diamond Warranty Programme.

We have pre-qualification with VicRoads and South Australia's Department of Planning, Transport and Infrastructure, and we regularly supply signs to Roads and Maritime Services in New South Wales, the Northern Territory Government and its preferred contractors. Roadside Services is certified in Quality, the Environment and OH&S.

Knowledgeable advice

Roadside also offers friendly and helpful advice from its team of sign experts in regards to the complex state regulations covering the use, installation, erection and placement of guide signs. Our service is your solution.

Staying ahead in signage provision

Roadside Services and Solutions has a strong focus on innovation and continual improvement. The company uses two state-of-the-art DURST Roll-to-Roll/Flatbed UV Inkjet-Printers which are capable of producing more than 300 square metres of Class 1 and Diamond Grade signs on a daily basis. Roadside has almost 100 fulltime staff and operates an extensive fleet of plant and equipment. We operate manufacturing facilities in Melbourne, Adelaide and Darwin. These operations are supplemented by our representatives in New South Wales, Western Australia, Tasmania and New Zealand.
